Resolution

The "partial concealment" segment of the open water hunting rules has generated many definitions, concerns and problems for hunters and enforcement over the years.

The current proposed rule change seems to be causing similar concerns - thus not really changing things. It is also ~~quite discriminatory~~ discriminates for and against types of gear.

Be it resolved, that the Cons. Congress at its annual meeting in Vernon County on April 13, 2009 recommends that the Conservation Congress works to resolve this matter via approval of a rule as follows — A person may hunt in open water where he finds one stem of emergent vegetation rooted to the bottom. (i.e. "An Old Warden Rule"!)
