15 - #3 - 2010
CODE - RES# - YEAR

#3

15" minimum size
limit for hook and line
White fish on Green Bay
and tributary waters

The sport of White fish fishing on Green Bay has been increasing very fast in the last 5 years, doubling each year.

The minimum size for commercial harvest has been 17" for more than 30 years.

Therefor, Door County Conservation Congress at its meeting on April 12, 2010 requests the Great Lakes Study Committee work with the WDNR to implement a 15" minium size limit for hook and line fishing on Green Bay and it tributaries.
