The Problem

Due to Recent Budget Cuts in the DNR, Many trout fisherman believe there is a Lack of Law Enforcement on wisconsins trout Streams. ~~Trout~~ Trout Fisherman would like to Rectify this situation By implementing a Early Season trout Stamp. This money could then Be Earmarked to increase Law Enforcement on all Streams open For the Early trout season

Be it Resolved that the Conservation Congress at its annual meeting held in Pierce County on April 12th Reccomends that the Conservation Congress work with the DNR to take action to Correct this Problem By introducing a Rule change that would create an Early Season trout Stamp in the amount of ten Dollars
