Title - Vehicle Traffic on Frozen Lakes

Problem - Whereas There is an ever increasing number of users on froze Lakes, by anglers, snowmobiles, ATV's, skiers, and many times small children playing or skating. With cars, trucks, snowmobiles, and ATV's driving and riding on the lakes surface thereby ~~is a strong~~ creating ~~probability of~~ safety ~~issues~~ hazards and issues. Many times these vehicles are moving at high speeds and within close proximity of persons, other vehicles and structures. Since the enforcement of cars & Trucks driving on the ice is not regulated by any state agency and only in some Localities there needs to be consistant Regulations for all motorized vehicles.

Be it Resolved that the conservation congress at its Annual meeting held in Eau Claire County on April 11th 2011 recommends that the conservation congress and the state of Wisconsin take action to correct this situation by

(over)

Car - Trucks

by creating a maximum speed Limit of 25 mph for all motorized vehicles travelling on frozen lakes unless on a state or club marked trail. ~~To~~ in order ~~to~~ thereby preventing unsafe conditions among lake users and minimize the deterioration of ice conditions due to the energy wave under the surface created by the vehicles moving at higher speeds
