Resolution Title: Trapper Liability

Problem: Trappers are not held liable for their traps and what they catch in them.

State Law holds hunters liable for what they harvest. State Law holds fishermen liable for what they catch. State Law holds pet owners liable for their pets, etc...

Trappers need to be liable for their traps, and the damange they do.

Be it resolved, that Oneida County supports Trappers being liable for their traps, and the damange they do
