Please repair the Estrabrook dam. I hope there is a partial winter draw down for safety reason.

Growing up I learned to fish by my father in Lincoln Park on the fishing pier. This was in the 1960(s). At the time we lived at 70th and Hampton Ave. The benefits from the dam in Estabrook Park reach many people, young and old, throughout the greater Milwaukee area. This experience should be shared with future generations to come. I hope to teach my grandchildren how to fish in Lincoln Park when the Estabrook Dam is repaired.

Best regards,

Craig Stephen
