Subject:	Estabrook Dam Removal
Date:	Tuesday, April 05, 2016 6:49:53 PM

Dear DNR,
As Milwaukee becomes aware of river mismanagement and takes strides to right wrongs, removal of the Estabrook Dam is one of the wrongs that can be corrected. Water flow and riverine habitat and wildlife continuation are critical first steps on the Milwaukee River. I have supported the removal of the dam since the beginning possibilities of repair or removal.
Environmental Impacts of Dams
Dam Effects on Rivers
Dams Reduce River Flow to Ponds
River Habitats change
Dams Degrade water quality
I write again to remove the dam.
Sincerely,
Linda Keane, AIA
