Subject: REPAIR THE ESTABROOK DAM
Date: Tuesday, April 05, 2016 11:16:38 AM

I do not live right on the Milwaukee River but have enjoyed the river for recreation and renewal. I am very disappointed that the question of the Estabrook Dam is still unresolved.

I am in favor of repairing the dam because I feel that the Lincoln Park impoundment and the river directly north of it have in the past provided so many varied opportunities for recreation to so many **diverse** populations in the area. I walk in this area regularly, and enjoyed the river in it's previous state.

My properties borders Lincoln Creek, so I am in favor of a partial winter drawdown for safety reasons and fully automated gates, eliminating the need to hire an individual to watch the weather and gauge the flow of the river.

This is a great resource for such an urban area. Please follow the order to repair!
