Hi Kristina,

I'm emailing in regards to Estabrook dam removal. I have been fly fishing the Milwaukee river for years now for salmon, brown trout, and steelhead. Because of my fun filled experiences on the Milwaukee river, I hope that the DNR can remove the damn. Removing the damn will improve the health of the river and allow fish to pass through the Estabrook dam area. Improving the health of the river is very important to me. I hope the dam is removed.

Thanks,

Danny Allen
