YOUTH HUNTING

Whereas we are loosing every day the amount of people who hunt.

Whereas at some point in time there will be fewer hunters than there are anti hunters.

Whereas as we need to have the ability to let the youth of this state the chance to enjoy the passion of hunting at a younger age.

Whereas by allowing youth the chance to hunt at the age of 10 years old we are giving them an earlier opportunity to enjoy hunting and a better chance of keeping them in the hunting fraternity.

Hand Whereas mandating that an adult must accompany the youth , be within arms reach, and there be only one weapon involved in the hunt This way the adult can concentrate on the youth having a good, safe and rewarding hunt.

Therefore be it resolved that on April 13th 2009 in Price County that we ask the DNR and the legislators take necessary steps to make it possible for the youth of Wisconsin to hunt at the age of 10 years old as long as they are accompanied by an adult, within arms reach, and only one weapon between them.

Would you be in favor of the DNR and legislators implementing the ability of youth in Wisconsin to be able to hunt as long as they are accompanied by an adult ,within arms reach of an adult, and only one weapon between them?
