## RESOLUTION

To allowed the use of pistol calibers in a long gun in all shotgun zones:

I would like to legalize all pistol rounds to be used in a long gun. If I can go out with a .30-06 or a 30-30 in a pistol. Why can't I go out with along gun. The Pistol rounds can go just as far as the long guns ken. Like the Thompson contender and the Encore in (.30-06,.308 and 7mm) which are legal now. I would like to see them legalize in a long gun.

These pistol round are legal in handguns only at the present time. No more dangers then the shotguns in these area now. With a sabot slugs in a 12 ga. close to the rang of a .308 win.

Do you favor to legalize all pistol rounds to be used in a long gun in all shotgun zones
