

Resolution # 64-04-10

Title: Expand recreational hunting opportunity and options by allowing the use of crossbows in all Metro Deer Management Units under the archery license without current age and/or disability restrictions.

Concern: There is a continuing concern over management of deer populations in and around major communities within the Metro Deer Management Units. Providing the archery hunter with the option to use crossbows will increase outdoor recreation hunting opportunities in managing deer in Metro Units.

Be It Resolved that the Conservation Congress at its annual meeting in Vilas County on April 12, 2010, recommends the Wisconsin DNR take action to allow the use of crossbows under the archery license in all Metro Deer Management Units without current age and/or disability restrictions.
