TITLE: Muskie snagging in the Pewaukee river

The program: fishing this river in the spring results in muskie being snagged pulled from and pulled out of the water and injured out of season.

The Solution: a section of the Pewaukee River to be protected during spring.

The area to be protected is from the outfall to the Oakton St. bridge

Therefore be it resolved that at the Conservation Congress hearing in Waukesha, Wi April 11th 2011 the Congress work with the department to establish a fish refuse in the Pewaukee River from the out fall to the Oakton St. bridge
