

Hunting With Dogs Committee

70-3-14

Title: Allow bear hunting with dogs in Zone C

The Problem: Currently bear hunting with dogs is allowed in Zones A, B, and D. You are allowed to train dogs on bear in Zone C, but not hunt with them. There have been large numbers of bear that have moved into central and southern Wisconsin. You are allowed to hunt raccoons, coyotes, and wolves with dogs in Zone C.

Why not allow bear hunting with dogs in Zone C?
