

CHRONIC WASTING DISEASE

PROBLEM: Chronic wasting disease is increasing in the Wisconsin deer herd. Under the direction of Dr. Kroll, the DNR is taking a wait and see approach.

Be it resolved that the Conservation Congress at it's annual meeting in Marathon County on May 15<sup>th</sup>, 2015, recommend that the Conservation Congress work with the DNR to develop a more effective approach to limit the spread of Chronic Wasting Disease, and protect the integrity of the Wisconsin deer herd.
