Here is my proposal, please review and let me know what you think.

Title: Sale of Antlerless Permits

The Problem: In order to achieve population goals for Whitetailed Deer in Wisconsin, the Department of Natural Resources offers for sale each year a specific amount of antlerless deer permits. At present, these permits are offered during daytime hours. Hunters working during this time are unable to purchase permits due to job requirements and/or are unable to access a computer.

Be it resolved that the Conservation Congress, at it's annual meeting in Rusk County on Monday, April 11, 2016, recommends to the DNR to correct this problem by offering antlerless permits during two separate time periods, one in the morning and a second in the late afternoon/early evening, each for a specific time period to be determined by the Department, to allow working hunters access to antlerless deer permits.
