Vilas Resolution #64-02-16

The Problem: Youth are our hunting future and seniors are our hunting heritage. We offer youth hunting opportunities that encourage them to participate with special youth deer and other seasons but have no opportunities that encourage seniors to keep actively hunting.

Whereas, youth age 10 to 17 are provided two deer tags with a gun-deer license and can harvest an antlerless deer as well as a antlered deer, and

Whereas, many senior deer hunters become limited as age restricts activity,

Now therefore be it resolved the Vilas County Conservation Congress meeting April 11, 2016, youth gun-deer license for age 10 to 17 be hunters-choice and the gun-deer license for seniors age 65 and older be hunters-choice.
