

County Code #4 REC #2 2013

**Title: Create a Permanent Shooting Range Committee in the Conservation Congress**

**The Problem**

There are over 900 shooting ranges in Wisconsin. Many Hunter Education classes and range firing are held on club ranges. These ranges contribute a great amount of the Pittman-Robertson excise taxes collected in Wisconsin. At this time, ranges do not have any representation or a voice about range funding or how much of the PR funds is available for use of the range improvements. Other organizations and hunting and fishing groups do have representation on the Congress. Shooting Range Clubs do need representation.

BE IT RESOLVED, the Conservation Congress, at their annual meeting held in Eau Claire County, on May10-13, create a permanent Shooting Range Committee.
