

What if Water Cost as Much as Gasoline?

Activity Sheet

Sale on water! Only _____ per gallon!

A) Multiply the number of gallons of water listed after each use below by the price per gallon. Put this answer in the space provided. An example has been done for you using the price of \$1.00 per gallon of water.

example: Bath 30 gallons x \$1.00 = \$30.00 per bath

B) Each time you use water:

- Put a mark (I) after the type of water use. Keep a tally of each use.
- The price listed under “cost” will tell you how much to pay for that water use. Now put that amount of money in your envelope.

| Use | Price per Gallon | Cost per Use | Check here each time you use water |
|---------------------------------------|----------------------------|--------------|------------------------------------|
| Washing dishes by hand | 10 gallons x _____ = _____ | each use | <input type="checkbox"/> |
| Automatic dishwasher | 11 gallons x _____ = _____ | each use | <input type="checkbox"/> |
| Flushing toilet | 4 gallons x _____ = _____ | each use | <input type="checkbox"/> |
| Cooking & drinking | 3 gallons x _____ = _____ | each use | <input type="checkbox"/> |
| Washing hands | 1 gallon x _____ = _____ | each use | <input type="checkbox"/> |
| Brushing teeth (water running) | 2 gallons x _____ = _____ | each use | <input type="checkbox"/> |
| Shower | 18 gallons x _____ = _____ | each use | <input type="checkbox"/> |
| Bath | 30 gallons x _____ = _____ | each use | <input type="checkbox"/> |
| Washing clothes | 30 gallons x _____ = _____ | each use | <input type="checkbox"/> |
