Pursuant to s. 227.137, Wis. Any local governmental unit that is affected by the rule may also request to coordinate with the department on preparation of the EIA. If a local governmental unit wishes to coordinate with the department on preparation of the EIA, it must notify the department of its request to coordinate at the time comments on the EIA are submitted. The Department will then contact all local governmental units requesting an opportunity to coordinate and incorporate their comments into the EIA to the extent feasible.

Pursuant to Executive Order #50 (2011) and s. 227.137, Wis. Stats., the Department must include the information listed below in an EIA. To review all of the information that must be included in an EIA, you may refer to the Executive Order and statutory provisions. When submitting comments, please provide specific information in these areas and include any supporting economic data, studies or reports. Please do NOT submit comments on revisions to the rule language at this time. The department is soliciting information on the following from you and others:

Would you, your business, your association, or your local unit of government be affected in a material economic way by the implementation of FH-13-16 that establishes the total allowable annual harvest of cisco by state fishers in Wisconsin waters of Lake Superior?

If so, please provide the following comments:

1. Any implementation or compliance costs that are reasonably expected to be incurred.
2. Actual quantifiable benefits of the proposed rule.
3. Whether the proposed rule would adversely affect in a material way the economy, a sector of the economy, productivity, jobs, or the overall economic competitiveness of the state.
4. Economic impacts of specific alternatives to the proposed rule.

5. Whether the proposed rule will have an economic impact (savings or increased costs) on public utilities or their ratepayers.

If you are a small business as defined in s. 227.114(1), Wis. Stats., please identify yourself as a small business in your comments. Small business means a business entity, including its affiliates, which is independently owned and operated and not dominant in its field, and which employs 25 or fewer full-time employees or which has gross annual sales of less than \$5,000,000.

Following the public comment period for the EIA, a revised "Fiscal Analysis and Economic Impact Analysis" will be prepared containing relevant information that the department receives. After the EIA process is completed, the Department will hold public hearings on the proposed rule
