CITY OF ASHLAND	Ashland, City of Bayview Park Fishing Pier	Ashland	NO	Annie Loechler, 715-635-4160	\$111,500.00	\$59,288.00	The City of Ashland will demolish the existing Bayview Park pier and reconstruct a new ADA complaint pier and access walkway within the footprint of the old ore dock #3. Not counting the approach, the new pier will be approximately 171 feet. Two sections, the "T" off to the east, will be dedicated specifically to fishing. These pier stations are approximately 54' x 7.5' and 94' x 7.5'. They will have benches, fishing stations and railings. An ADA accessible walkway will be built to access the entire pier and parking lot.
CITY OF CHIPPEWA FALLS	City of Chippewa Falls Glen Loch Boat Access	Chippewa	WC	Not Available	\$87,965.34	\$66,416.48	<p>The City of Chippewa Falls is initiating a project in Erickson Park on Glen Loch Lake with the goal of developing a boat launch and amenities.</p> <p>Objectives:</p> <ol style="list-style-type: none"> 1. Construct 1 boat launch on Glen Loch by November 2018 2. Construct 1 concrete vault toilet by November 2018 3. Install 1 ADA compliant sidewalk by November 2018 4. Construct 1 ADA parking stall near launch by November 2018 <p>Approach:</p> <p>The City will replace an unimproved dirt landing with a 15' x 44' concrete boat ramp to be served by a 10'x 20' floating dock with canoe/kayak launch and 5' x 30' aluminum gangway. Project will create a parking area in a previously disturbed area (see lower lot of overall plan). Parking improvements will include space for 5 vehicle-trailer units (1 ADA) and 13 vehicles (8 ADA), and 1 concrete vault toilet.</p>

CITY OF CHIPPEWA FALLS	City of Chippewa Falls Glen Loch Fishing Pier		WC	Not Available	\$38,500.00	\$61,500.00	<p>The City of Chippewa Falls intends to construct two fishing piers, a fishable boardwalk, and ADA parking at Glen Loch Lake. This project will provide shore fishing access for residents, especially those with disabilities. Fishing access is currently very limited.</p> <p>Purpose: The purpose of this grant is to provide ADA-Accessible shore fishing opportunities for individuals with disabilities and the general public on Glen Loch.</p> <p>Objectives: 1. Construct 2 Fishing Piers on Glen Loch by November 2018</p> <p>Approach: The City will construct 2 new fishing piers on Glen Loch: East Pier: 14'-6" x 39'-4" pier with a 15' long x10 wide gangway, and West Pier: 10' x 20' pier with a 15' long x 10 wide gangway. Using other state, federal, and private funding sources (see budget justification/other grants sections), these piers will be linked by a 200' new shoreline boardwalk cantilevered over the water's edge to provide shore fishing opportunities. An ADA sidewalk will link the boardwalk to the boat launch area, accessible restroom facilities.</p> <p>DNR staff will provide project technical expertise, design review, and construction inspection.</p>

CITY OF KEWAUNEE	City of Kewaunee Boat Launch Rehab	Kewaunee	NE	Not Available	\$183,040.00	\$228,960.00	<p>The City of Kewaunee will utilize Sport Fish Restoration grant funds to assist with the repair and upgrade of the boat launch facility. The project will include engineering, design, permitting, and ramp reconstruction.</p> <p>This project will involve rehabilitation of three concrete boat launch ramps on the north shore of the Kewaunee River in the City of Kewaunee. The existing ramps are as follows:</p> <table border="0"> <tr> <td style="text-align: center;">Existing</td> <td style="text-align: center;">Proposed</td> </tr> <tr> <td>• West 32'x 50'</td> <td>34'x 70'</td> </tr> <tr> <td>• Central 32'x 60'</td> <td>34'x 70'</td> </tr> <tr> <td>• East 40'x 60'</td> <td>40'x 70'</td> </tr> </table> <p>The three boat launch ramps offer a total of six lanes, two lanes per ramp. The current ramps have been degraded over time due to heavy use and as a result the city is looking to replace the ramps with larger and better designed ramps. Currently, the ramps are short, have an improper slope, and the concrete surfaces are worn providing little traction. The new proposed ramps are engineered to be ADA accessible and are designed to address each of the aforementioned problems.</p> <p>The scope includes full ramp and subgrade replacement with a 6" cast-in-place reinforced concrete and 12" base course. A minimum 16" cutoff wall will be constructed on the edges. The surface of the ramps will be finished with 1" V-grooves for added traction. The ramps will enter the water at the proper slope and the toe of the ramps will be at minimum 3 feet below the low water elevation. Rip-rap will be placed along the edges in order to protect the area.</p>	Existing	Proposed	• West 32'x 50'	34'x 70'	• Central 32'x 60'	34'x 70'	• East 40'x 60'	40'x 70'
Existing	Proposed														
• West 32'x 50'	34'x 70'														
• Central 32'x 60'	34'x 70'														
• East 40'x 60'	40'x 70'														
TOWN OF CONOVER	Conover, Town of Stormy Lake Boat Launch	Vilas	NO	Annie Loechler, 715-635-4160	\$36,712.00	\$36,712.00	<p>The Town of Conover proposes to rehabilitate the boat launch and access road on Stormy Lake. The project consists of access road improvements to improve drainage, replacing the existing launch with a longer ramp and installing an ADA accessible boarding dock and parking space. Project to include pre-engineering and engineering.</p>								
VILLAGE OF NORTH FREEDOM	North Freedom launch Baraboo River	Sauk	SC	Not Available	\$168,422.50	\$168,422.50	<p>The Village of North Freedom proposes to renovate the existing boat launch to make needed repairs and bring it into ADA compliance. The project will include constructing and installing a new boat ramp and boarding dock, paving, marking and striping the parking lot, constructing an ADA path from lot to launch, landscaping and repairs to restroom facilities. The repairs to restroom facilities have been prorated at 50% as these are shared with general park users.</p>
