- 3) Access will be off Deer View Rd and Bastian Rd, across state land. Landings have been located in upland areas.
- 4) Emerald Ash Borer (EAB) is infesting this sale. Most of the ash trees are living.
- 5) Columbian timber beetle is also likely present and affects timber quality of silver maple, however, it does not affect tree health.

Conversion Factors / Scaling: The following weight conversion will be used in the conversion of weight scale to cords or cords to weight scale. Factors for mixed hardwood and oak cordwood were developed by weighted average of cruise estimates based on species volume distribution.

Any simple washing (power wash) is acceptable. Inspection of equipment will be done when logging equipment arrives on-site before logging operations begin. Timber mats must also be free of debris when arriving on-site.
