

**A Strategic Analysis of
Surface Water and Groundwater Use, Effects and Management
In the
Central Sands Region of Wisconsin**

Wisconsin Department of Natural Resources

January 2014

1. Executive Summary
2. Purpose of this Strategic Analysis
3. Description of the Central Sands Region
 - 3.1. Geology and soils
 - 3.2. Land Cover and Use
 - 3.3. Surface water and wetland resources
 - 3.4. Groundwater resources
 - 3.5. Climate
4. Water Use in the Central Sands
 - 4.1. Surface water use
 - 4.1.1. Agricultural
 - 4.1.2. Municipal
 - 4.1.3. Industrial
 - 4.1.4. Other consumptive users
 - 4.1.5. Riparian and recreational
 - 4.2. Groundwater use
 - 4.2.1. Agricultural
 - 4.2.2. Municipal
 - 4.2.3. Industrial and commercial
 - 4.2.4. Private domestic
 - 4.2.5. Other
 - 4.3. Activities Affecting Groundwater and Surface Water
 - 4.3.1. Land cover and use changes
 - 4.3.2. Drainage ditches

- 4.3.3. Surface water withdrawals and discharges
 - 4.3.4. High capacity wells
 - 4.3.5. Other groundwater withdrawals
 - 4.3.6. Residential withdrawals
 - 4.3.7. Climate change
- 5. Effects of changes in Groundwater and Surface Water
 - 5.1. Water Use Availability
 - 5.2. Navigation/Recreation
 - 5.3. Fish and Aquatic Life
 - 5.4. Public Health and Welfare
 - 5.5. Biodiversity/Species of Concern
- 6. Regulatory Authorities
 - 6.1. DNR high capacity well permit review process
 - 6.2. DNR non-high capacity well permit review process
 - 6.3. DNR surface water withdrawals permit review processes
 - 6.4. DNR surface water channel change permit review process
 - 6.5. Land use controls
 - 6.6. Agricultural siting authorities
 - 6.7. Other Wisconsin local or state regulatory authorities
 - 6.8. Groundwater management regulatory authorities in other States
- 7. Management Alternatives for Groundwater Use and Surface Water Protection
 - 7.1. Groundwater and surface water monitoring/modeling
 - 7.2. Protection of groundwater recharge areas
 - 7.3. Promoting or requiring water conservation measures
 - 7.4. Land use changes to less-consumptive groundwater uses
 - 7.5. Actions to increase seasonal surface water storage for supplemental use
 - 7.6. Targeted water use management
 - 7.7. Engineered mitigations
- 8. Summary
