

Pursuant to NR 1.02(7)(c), Wis. Adm. Code, the Department of Natural Resources gives public notice of the classification of 3.9 miles of Kittleson Valley Creek, in Dane County as a Class 2 Trout water. The portion of stream to consider for reclassification runs from CTH H in Dane County to the Iowa County/Dane County line.

This classification is based upon a survey which indicates this portion of stream has some natural reproduction, multiple year classes of trout present and there is sufficient overwinter survival.

*“A Class II Trout Stream is a stream or portion thereof that contains a population of trout made up of one or more age groups, above the age one year, in sufficient numbers to indicate substantial survival from one year to the next, and may or may not have natural reproduction of trout occurring; however, stocking is necessary to fully utilize the available trout habitat or sustain the fishery.”*

The Department shall waive any hearing requirement on this classification unless a written request for hearing is received before October 10, 2016. Requests should be sent to David Rowe, WDNR, 3911 Fish Hatchery Rd, Fitchburg WI, 53711.

Pursuant to NR 1.02(7)(c), Wis. Adm. Code, the Department of Natural Resources gives public notice of the classification of 1.56 miles of Moen Creek, in Dane County as a Class 2 Trout water. From the confluence with Elvers Creek upstream to the outlet of Stewart Park Lake.

This classification is based upon a survey which indicates this portion of stream has multiple year classes of trout present and there is sufficient overwinter survival.
