Subject: **Attachment 2 for Green Tier Application form 4800-022**

Mr. McDermid,

Edgerton Contractors, Inc. (ECI) is providing the letter to serve as the requirement for attachment two of the Green Tier Application form 4800-022. ECI is an environmental conscious contractor providing excavating and environmental services to various market segments. The company promotes a work environment that enables its employees to engage environmentally responsible work activities.

As an industry leader, ECI has developed an equipment fleet that utilizes leading technologies. Additionally, the company has built relationships with local and national firms that share its environmental vision and support the advancement of its equipment fleet.

Through its equipment fleet ECI has continually decreased its environmental impact by reducing its emissions of non-road construction equipment. In the future, the company looks forward further refining its equipment fleet and deploying additional technologies. ECI is making it a priority to further reduce its emissions from non-road construction equipment.

The company's Environmental Management System (EMS) sets forth the framework for future emission reduction. Please find enclosed a copy of the EMS that will be implemented.

ECI will measure future performance utilizing an annual period ending date of December 31<sup>st</sup>. The first performance measurement will utilize the date of December 31<sup>st</sup>, 2012.

We look forward to the opportunity of becoming a Green Tier company.

Sincerely,  
**EDGERTON CONTRACTORS, INC.**
