The Wisconsin Industrial Sand Corporation Environmental Policy

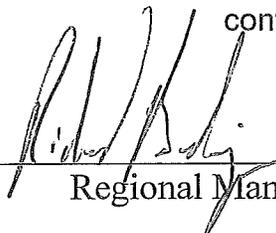

Wisconsin Industrial Sand will operate its business in an environmentally sensitive and responsible manner, with concern for our employees and stakeholders so that we will minimize the impact of our activities on the environment.

It is our policy to:

- Consider environmental factors through product and process planning
- Minimize waste and pollution
- Continually improve our efforts to minimize the impact of our processes on the environment
- Regularly communicate our environmental policies and performance to our employees and stakeholders

This commitment requires employees to participate in and accept responsibility for achieving the following:

- Comply with local, state and federal environmental laws and regulations, as well as other applicable requirements
- Implement and maintain a recycling program
- Restore disturbed land to a usable and productive state
- Reduce energy use
- Provide appropriate environmental training to employees, contractors and other interested parties
