2014 & 2015 GTLC Annual Report

For Monona's participation in the Sustainability Component
of the Green Tier Legacy Communities Charter

MISSION STATEMENT

The **mission** of the Sustainability Committee is to guide and assist Monona's government, residents and businesses to become a community that meets the needs of its present population without compromising the needs of future generations.

Monona became part of the Green Tier Legacy Communities Charter (Sustainability Component) in July of 2012, under which the City agreed to carry out sustainability initiatives in five categories. The following projects were implemented during 2014 and 2015.

2015 SUSTAINABLE PROJECTS

MISCELLANEOUS:

1. Monona's Sustainability Plan was completed and adopted by City Council on August 3, 2015.
2. The City participated in Sustain Dane's MPower program.
3. The City approved to take part in a pilot program called the UniverCity Alliance Project.

TRANSPORTATION:

1. Monona's Comprehensive Plan data was collected from residents, aggregating opinions on what the public wanted improvements in related to Monona's bus service.
2. Monona received a Bronze Award as a Bike Friendly Community.

LAND USE:

1. The City successfully replaced 2 culverts that obstructed fish migration between Winnequah Park Lagoon and Sumac Lagoon.

ENERGY:

1. The City upgraded water utility equipment by installing variable frequency drive motors at well locations.
2. The City updated electric and natural gas use data using EPA Energy Star Portfolio, now includes all municipal facilities, including street lights.
3. The City initiated an LED Street light pilot program in cooperation with its utility company, MG&E.
4. City Public Works purchased a Solar Battery Pack to run warning lights on one of the City's water utility vehicles, to be installed in 2016.
5. Monona retrofit lighting in City Hall with 232 new LED's by utilizing a Focus On Energy rebate incentive.

WATER:

1. Monona partnered with Clean Lakes Alliance, MAMSSWaP, YaharaWins, and Dane County to sponsor a Rain Barrel Program to promote stormwater reduction initiatives.
2. City Public Works installed four stormwater treatment devices at key locations in the City. These devices will significantly reduce the discharge of suspended solids which carry phosphorus to the lakes causing algae growth. They also will trap leaves and garbage as well as skim oils from the stormwater before it discharges from an outfall into the Yahara River or Lake Monona.
3. City Public Works reinforced approximately 205 feet of shoreline along Lake Monona and Winnequah Lagoon.
4. City Public Works street sweepers removed approximately 250 cubic yards of street debris and oils from the City's streets and gutters.
5. City Public Works Leaf Vac Trucks picked up approximately 5,950 cubic yards of leaves from City curbsides.
6. City Public Works crew members participated in Salt Wise instruction.
7. In 2014 Monona completed its Stormwater Management Plan, which the City has begun to utilize in order to meet its stormwater and water quality goals.
8. Monona built 2 curbside bio-retention basins on Panther Trl. These are placed along the curb in the right of way.
9. Monona made improvements to its water distribution system by upgrading piping, pumps, and chemical feeds to improve water quality and efficiency of the system.

WASTE:

1. Monona provided more public recycling receptacles at City facilities and at publicly held events.
2. City facilities took part in the Terracycle program.
3. Monona drafted a Sustainable Purchasing Policy that will be implemented in 2016.

SUMMARY

After two years of work, the Sustainability Committee in consultation with Madison Environmental Group, completed Monona's first Sustainability Plan. The plan follows the Natural Step process and strategies and also aims to reduce City energy use by 25% by the year 2025. It also works to accomplish strategies written in Monona's 2013 Strategic Plan. This year, in an attempt to meet the City's energy reduction standards, Monona began to benchmark energy use utilizing the EPA Energy Star Portfolio. Monona also approved and allocated funds for the UniverCity Alliance Project. This project will partner the City with the University of WI-Madison with the goal of taking real urban projects to the University and taking the University to the City. These projects are to be undertaken in 2016-2017. One of these projects includes the potential of drafting a Sustainable Transportation Plan. Monona also drafted an update to the City's Comprehensive Plan and is planning to publish the final draft in 2016.

GTLC SUSTAINABLE STRATEGIES SCORESHEET

A copy of the Legacy Communities Strategy Options Matrix (Appendix 3 of the Legacy Communities Charter) is included after this summary report.

City of Monona Sustainability Contact

Brad Bruun
City of Monona Public Works Project Coordinator & GIS Specialist

Element	Max. Score	 GREEN TIER	<h2 style="text-align: center;">Sustainability Strategies Scoresheet</h2> <p style="text-align: center;">(Also known as Appendix 3 of GILC Charter, Last Revised 02-08-2016 by Rick Ellertson)</p>						
			Community Name 2011 Scores*	Community Name 2012 Scores*	Community Name 2013 Scores*	Community Name 2014 Scores*	Community Name 2015 Scores*	Community Name 2016 Goal*	
		     							
		<p>This Sustainability Strategies Scoresheet is provided for member municipalities to track sustainability management strategies in transportation, energy, land use, water, waste, and health. This scoresheet is intended to be dynamic and flexible. In the spirit of continuous improvement toward superior environmental performance, suggested revisions to this scoresheet are always encouraged.</p>							
T R A N S P O R T A T I O N		TRANSPORTATION DEMAND MANAGEMENT:							
		<p>Transportation demand management strategies aim to reduce GHG emissions and VMT by influencing change in individual behavior. These strategies encourage walking, bicycling, and transit as modes of transportation within a community and seek to curb the number and length of trips by vehicle.</p>							
		<u>Bicycle and Pedestrian Programs/Projects</u>							
		2	Require bike parking for all new non-residential and multifamily uses.	0	0	0	0	1	0
		1	Set standards for placement and number (as function of intensity of use) for bike parking spaces.	0	0	0	0	0	0
		3	Commuter bike routes identified and cleared.	0	1	0	0	2	0
		10	League of American Bicyclists certification. (Bronze 5, Silver 7, Platinum 10)	0	5	0	0	5	0
		3	Funded and operating SRTS program (or functional equivalent) covering at least 10 percent of students.	0	1	0	0	1	0
		1	Conduct annual survey of students' mode of transport to school.	0	0	0	0	0	0
		<u>Employer-Based Programs</u>							
		5	Require large employers seeking rezoning to set a price signal (cash-out or charge).	0	0	0	0	0	0
		5	Require large employers seeking rezoning to provide subsidized transit.	0	0	0	0	0	0
		5	Require large employers seeking rezoning to provide a TDM plan that would reduce trips by 20 percent over business as usual.	0	0	0	0	0	0
		<u>Traffic Volume</u>							
		3	Track VMT or traffic counts and report on efforts at reduction (including those on this list).	0	1	0	0	1	0
		3	Eliminate parking minimums from non-residential districts.	0	0	0	0	0	0
		5	Set parking maximums at X per square feet for office and retail uses.	0	0	0	0	0	0
		5	Scheduled transit service at basic level (hour peak service within half-mile of 50 percent of addresses).	0	1	0	0	1	0
		10	Scheduled transit service at enhanced level (half-hour peak service within 75 percent of addresses).	0	0	0	0	0	0
		TRANSPORTATION SYSTEM MANAGEMENT							
	<p>Transportation system management strategies aim to reduce GHG emissions and VMT by improving the overall performance of a transportation system. These strategies improve existing infrastructure, introduce new technology, and plan for the future of the system.</p>								
	<u>Preservation and Improvement</u>								
	3	Develop and fully fund comprehensive maintenance program for existing roads.	0	1	0	0	1	0	
	5	Charge impact fees for new roads.	0	0	0	0	0	0	
	5	Calculate lane-miles per capita for arterials and collectors, and show reductions	0	0	0	0	0	0	
	5	Prepare a plan identifying disconnections in bike and pedestrian networks, prioritizing fixes and identifying potential funding sources for the most important projects.	0	1	0	0	1	0	
	5	Any proposal to add lanes to a two-lane roadway shall be evaluated for a center turn lane, the preferred option over an expansion to four lanes.	0	3	0	0	3	0	

Element	Max. Score	 GREEN TIER	<h2 style="text-align: center;">Sustainability Strategies Scoresheet</h2> <p style="text-align: center; font-size: small;">(Also known as Appendix 3 of GTLC Charter, Last Revised 02-08-2016 by Rick Ellertson)</p>					
			Community Name 2011 Scores*	Community Name 2012 Scores*	Community Name 2013 Scores*	Community Name 2014 Scores*	Community Name 2015 Scores*	Community Name 2016 Goal*
3	Identify four-lane roadways with fewer than 20,000 vehicles per day (AADT) and evaluate them for "road diets" with bike lanes or on-street parking							
	<u>Electric Vehicles</u>							
	1	Allow NEVs on appropriate roadways.						
	2	Provide public charging stations						
	<u>Vehicle Idling</u>							
2	Ban idling (more than 5 minutes) with local government vehicles.							
	5	Ban idling (more than 5 minutes) community-wide.						
ZONING AND DEVELOPMENT								
Zoning and development strategies work toward improving the overall environmental, economic, and social health of a community by promoting mixed-use and infill development, walkable neighborhoods, and an overall sustainable lifestyle.								
<u>Infill Development</u>								
5	Identify priority areas for infill development, including those eligible for brownfields funding.							
	1	Create land bank to acquire and assemble priority infill sites						
	1	Develop an inventory of known contaminated properties for reuse planning, with possible GIS application						
<u>Walkscore</u>								
10	Measure Walkscore at 10 random residential addresses per Census tract, compute average, and improve upon overall score							
<u>Zoning</u>								
5	Adopt traditional neighborhood design ordinance (if population is less than 12,500)							
5	Zoning for office and retail districts permits floor-area ratio > 1, on average.							
8	Zoning for office and retail districts requires floor-area ratio > 1, on average.							
5	Zoning code includes mixed use districts							
8	Mixed-use language from Smart Code TBA.							
NATURAL RESOURCE MANAGEMENT								
Natural resource management strategies seek to conserve, preserve, protect and promote a community's greenspace, wildlife, wetlands and waterways for this and future generations by promoting pervious surfaces and adequate setbacks.								
<u>Canopy</u>								
3	Adopt tree preservation ordinance per GTLC standards.							
4	Set a tree canopy goal and develop a management plan to achieve it							
2	Require trees to be planted in all new developments							
2	Certification as tree City USA							
2	Certification as Bird City Wisconsin Community							
<u>Vegetation Management</u>								
2	Public properties and rights of way mown or cleared only for safe sightlines and/or to remove invasive species.							
2	Create community policy and BMP guidelines on minimizing chemical use during vegetation management of public and private properties							
<u>Water Protection</u>								
10	Establish 75-foot natural vegetation zone by surface water.							
5	Inventory wetlands and ensure no net annual loss.							
COMMUNITY ENERGY USE								

Element	Max. Score	 GREEN TIER	Sustainability Strategies Scoresheet					
			(Also known as Appendix 3 of GLTC Charter, Last Revised 02-08-2016 by Rick Ellertson)					
			Community Name 2011 Scores*	Community Name 2012 Scores*	Community Name 2013 Scores*	Community Name 2014 Scores*	Community Name 2015 Scores*	Community Name 2016 Goal*
ENERGY								
Community energy use strategies encourage energy efficiency and the use of renewable fuels to reduce total energy consumption throughout the community								
<u>Community Energy Use Policies</u>								
6	Use PACE financing		0	0	0	0	0	0
1	Watt meters available to the public		0	0	0	0	0	0
10	Adopt Residential Energy Conservation Ordinance (time-of-sale certification and upgrades).		0	0	0	0	0	0
<u>Measuring Community Energy Use</u>								
4	Work with local utilities to calculate total electricity and natural gas consumption annually, beginning with the fifth year before entering the program.		0	0	0	0	4	0
1	State of Wisconsin Energy Independent (EI) Community designation.		0	0	0	0	1	0
MUNICIPAL ENERGY USE								
Municipal energy use strategies encourage municipal employees to conserve energy, preserve the environment, and decrease greenhouse gas emissions from municipal facilities, services, and vehicle fleets.								
<u>Government Energy Use Policies</u>								
5	Include transportation energy/emissions as criterion in RFPs for purchases of goods over \$10,000.		0	0	0	0	0	0
3	Develop list of lighting, HVAC and shell improvements to raise Energy Star Portfolio Manager or LEED EBO&M score		0	2	0	0	2	0
3	Reduce motor fuels use for non-transit activities --		0	0	0	0	0	0
6	Provide transit passes at 50 percent or more off the regular price and/or provide parking cash-out options for local government employees.		0	0	0	0	0	0
5	Streetlights operate at 75 lumens/Watt or higher		0	0	0	0	1	0
3	Stoplights are LED or functional equivalent		0	0	0	0	1	0
5	Municipal electricity purchases are at least 5 percentage points higher in renewable content than the statewide renewable portfolio standard requires. Calculation may include self-generated power and purchased offsets.		0	0	0	0	0	0
<u>Measuring Government Energy Use</u>								
5	Complete EPA Energy Star Portfolio Manager spreadsheet for government energy use. Or score existing buildings with LEED EBO&M.		0	0	0	0	5	0
2	Calculate annual government fleet use of motor fuels, in gallons of petroleum and biofuels, beginning with the fifth year before entering the program.		0	0	0	0	0	0
10	All new and renovated municipal buildings must meet LEED Silver or greater.		0	0	0	0	0	0
WATER USE CONSERVATION								
Water Conservation strategy options set baselines and goals for water and energy performance in municipalities. They measure progress and promote water conservation by the government, business, and the community at-large.								
<u>Water Conservation</u>								
6	Track water and sewer use annually, beginning with fifth year before entering program, and develop plan for reductions.		0	3	0	0	3	0
4	Develop a water loss control plan with targets below the 15% required by the state and include a system-wide water audit implementation and time table		0	1	0	0	1	0
2	Join EPA's WaterSense Program for water utilities or the Groundwater Guardian Green Sites program and promote them to local business.		0	2	0	0	2	0
6	Use block rates and flat rates to encourage water conservation among residential, commercial, and industrial users.		0	2	0	0	2	0
3	Infiltration and inflow reduction by 10%		0	0	0	0	0	0
5	Plan for replacing all toilets using > 1.6 gpf and annual progress sufficient to reach 90 percent replacement in 10 years.		0	0	0	0	0	0
<u>Local Government Use</u>								
2	Install waterless urinals in men's restrooms at municipal facilities (city hall, parks, etc.)		0	0	0	0	0	0
3	All outdoor watering by local government, excluding parks and golf courses, from rain collection.		0	0	0	0	0	0

W A T E R	4	Develop a water efficiency and conservation plan for municipal buildings			0	0	0	0	0	0	
	WATER AND WASTEWATER INFRASTRUCTURE MANAGEMENT			Setting goals for the sustainable management of water and wastewater infrastructure reduces costs; saves energy; and ensures the protection of public health and the environment.							
	10	Develop and implement asset management plans that set targets for the sustainable maintenance, operation and renewal of water and wastewater infrastructure.			0	0	0	0	10	0	
	5	Wastewater biogas captured and used in operations.			0	0	0	0	0	0	
	1	Financial assistance for sewer lateral replacements.			0	0	0	0	0	0	
	5	Set goals for increasing the recovery of resources from wastewater for energy generation (heat or electricity) and fertilizer.			0	0	0	0	0	0	
	2	Explore partnership options with high-strength waste.			0	0	0	0	0	0	
	6	Upgrade water and wastewater utility equipment (e.g., variable frequency drive motors) to achieve energy efficiency based on total life cycle, triple bottom line costs (e.g. maintenance and replacement strategies in asset management plans).			0	0	0	0	6	0	
	STORMWATER MANAGEMENT			Stormwater Management strategy options encourage the use of best management practices to achieve a reduction in the amount of harmful pollutants introduced to our streams, rivers, and lakes.							
	3	Develop a regular street sweeping program to reduce total suspended solids			0	2	0	0	3	0	
	3	Stormwater utility fees offer credits for best management practices such as rain barrels, rain gardens, and pervious paving			0	0	0	0	3	0	
	2	Inventory all paved surfaces (e.g., by GIS mapping), and develop a plan for reduction			0	2	0	0	2	0	
	2	Work with commercial or light industrial businesses to develop stormwater pollution plans			0	0	0	0	2	0	
	WATER AND DEVELOPMENT			Water and Development strategy options link water conservation and the preservation of land, wetlands, and wildlife habitat while promoting compact development, restoration and rehabilitation efforts, and long-term planning.							
	Land Development			Identify key green infrastructure areas during plan development and/or implement a plan to acquire and protect key green infrastructure areas			0	0	0	5	0
	Waters, Wetlands, and Wildlife			Replace concrete channels with re-meandered and naturalized creeks, wetlands, or swales			0	0	0	0	0
	3	Develop a system for identifying culverts that obstruct fish migration and install fish friendly culverts where needed			0	3	0	0	3	0	
	4	Provide incentives for protection of green infrastructure, sensitive areas, important wildlife habitat, or for the restoration or rehabilitation of wetlands or other degraded habitats such as credit towards open space or set-aside requirements			0	0	0	0	0	0	
WASTE MANAGEMENT AND REDUCTION			Waste Management and Reduction strategy options encourage municipalities and their citizens to divert organics and recyclables from landfills and properly dispose of hazardous materials in an effort to reduce waste in a community.								
3	Community waste stream monitored at least annually . Waste reduction plan prepared and updated annually			0	1	0	0	1	0		
4	Waste and materials management plan based on "zero-waste" principles, with specific goals, prepared and updated annually			0	0	0	0	0	0		
3	Construction/deconstruction waste recycling ordinance			0	0	0	0	0	0		
3	Mandatory residential curbside recycling pickup that covers paper, metal cans, glass and plastic bottles			0	3	0	0	3	0		
5	Develop a municipal collection program that encourages the diversion of food discards, yard materials, and other organics from landfills to composting or anaerobic digestion with energy recovery			0	1	0	0	2	0		
3	Develop and promote programs that dispose of household hazardous, medical, and electronic waste			0	1	0	0	1	0		
4	Use anaerobic digesters to process organic waste and produce energy			0	0	0	0	0	0		
3	Implement municipal ordinances requiring manufacturer takeback for fluorescent bulbs, thermostats and other mercury-containing devices			0	0	0	0	0	0		
2	Ordinances in place to reduce the usage of phone books as well as single-use shopping bags, styrofoam food containers and other disposable packaging			0	0	0	0	0	0		
W A S T E				0	0	0	0	0	0		

Element	Max. Score	 GREEN TIER	<h2 style="text-align: center;">Sustainability Strategies Scoresheet</h2> <p style="text-align: center; font-size: small;">(Also known as Appendix 3 of GTLC Charter, Last Revised 02-08-2016 by Rick Ellertson)</p>					
			Community Name 2011 Scores*	Community Name 2012 Scores*	Community Name 2013 Scores*	Community Name 2014 Scores*	Community Name 2015 Scores*	Community Name 2016 Goal*
2		Pay-as-you-throw system implemented by municipality or required of private waste haulers	0	0	0	0	0	0
1		Use public education and outreach to promote recycling, backyard composting, product re-use and waste reduction	0	0	0	0	1	0
HEALTHY COMMUNITY PLANNING								
Policies and projects related to incorporating health living into community design- whether by built form, programs, education, etc. in an effort to reduce trends in poor nutrition, inactive lifestyles, chronic diseases, such as obesity and heart disease, and other negative health risk factors.								
<u>Policies Affecting Multiple Program Areas</u>								
5		Adopt a resolution that promotes Health in All Policies at the community level (e.g., HEAL Resolution). Include that educational campaigns supporting a program covered by the resolution are appropriately targeted to all of the populations addressed by the program	0	0	0	0	0	0
8		Establish a Health Impact Assessments policy, including when an assessment is required and its scope	0	0	0	0	0	0
<u>Planning</u>								
8		Add health policies in 1 or more of the community's plans, including the comprehensive plan, long-range transportation plan, bicycle/pedestrian plan and open spaces recreation plan (embedded or stand-alone chapter) or develop a comprehensive, community wide wellness plan.	0	0	0	0	0	0
3		Site schools in the Comprehensive Plan for accessibility with existing or new bicycle and pedestrian infrastructure	0	0	0	0	1	0
5		Encourage the formation and/or support of Neighborhood Improvement Districts (NIDs), Neighborhood Development Corporations, or other similar types of neighborhood reinvestment and enhancement strategies in plans or policies.	0	0	0	0	1	0
<u>Healthy Food Access</u>								
6		Implement strategies (urban agriculture, community gardens on public land, diversified farmer's markets, expanded traditional retail food options, ordinances to allow urban chickens and beekeeping and vegetable gardening in rights of way) that help increase fresh food access in the community, in particular in areas with food insecurity (e.g., "food deserts" and "food swamps"), including access by EBT and WIC participants.	0	0	0	0	2	0
7		Create a Food Systems Plan that addresses the production, distribution, value-added, marketing, end-market, and disposal of food, and charge a new or existing governmental body to oversee the plan's implementation.	0	0	0	0	0	0
<u>Physical Activity and Access</u>								
4		Provide an on-street and/or off-street trail network connecting recreational areas in the community (e.g. safe routes to parks) and other trip generators, such as shopping malls, ensuring all neighborhoods are included in planning and implementation.	0	0	0	0	0	0
4		Encourage pedestrian and bicycle site connections from front door of businesses or apartments to a public sidewalk and/or bike lane ensuring connections to all neighborhoods.	0	0	0	0	0	0
3		Provide education and establish programming to encourage physical activity, especially by youth.	0	0	0	0	1	0
7		Establish an expanded public transit that serves commuters from all neighborhoods and major parks and recreation facilities, and has racks on vehicles for carrying bicycles.	0	0	0	0	3	0
6		Require sidewalks in new residential areas and establish a policy for adding sidewalks, as appropriate, in areas built out without sidewalks.	0	0	0	0	0	0
8		Implement a Complete Streets policy.	0	0	0	0	0	0
5		Provide recreation programs for youth, adults, senior citizens and disabled persons.	0	0	0	0	3	0
3		Establish a pedestrian safety task force.	0	0	0	0	0	0
<u>Housing</u>								
7		Adopt ordinances and programs to maintain a healthy housing stock (code enforcement, landlord licenses, volunteer program, truth-in housing disclosure before sale, etc.).	0	0	0	0	1	0
6		Allow life cycle or adaptable housing options, such as "aging in place", accessory dwelling units, Universal or Inclusive Design, Dementia Friendly Communities, Age-Friendly Communities, etc.	0	0	0	0	1	0
8		Establish a program to make housing more affordable.	0	0	0	0	0	0
7		Establish a program to address chronic homelessness, such as "permanent housing".	0	0	0	0	0	0

Element	Max. Score	 GREEN TIER	<h2 style="text-align: center;">Sustainability Strategies Scoresheet</h2> <p style="text-align: center; font-size: small;">(Also known as Appendix 3 of GILC Charter, Last Revised 02-08-2016 by Rick Ellertson)</p>
