|---|--|--|

### 1.0 Purpose:

1.1 Standard Process is committed to managing health, safety and environmental matters as an integral part of our business. In particular, one of our corporate values is a commitment to the planet by “utilizing environmentally safe farming, manufacturing and business practices”. We are committed to environmentally friendly activities to ensure we live up to our core values and will continue our long tradition of commitment to the environment.

### 2.0 Reference Documents and Records:

- 2.1 Standard Process Mission Statement
- 2.2 EMS Manual
- 2.3 TMS-0001 TMS Manual

### 3.0 Procedure:

3.1 Standard Process’ mission includes a more broadly incorporated set of environmental strategies than those documented below.

- We will continuously strive to meet or exceed all applicable federal, state, local rules and regulations, and other requirements.
- We will regularly review and improve our environmental management system.
- We are committed to pollution prevention through regular review for potential improvement in practices, products, and procedures associated with our operations that will continue to reduce our environmental impacts.
- We will define and document annual environmental objectives and targets that are consistent with our environmental policy.
- We will promote communication and education of the environmental management system throughout our organization and extend this policy whenever applicable.

 President
