1. Current status and distribution	3	3			3	3	3		3						
2. Establishment potential	2	3			3	3	3		3						
3. Damage potential	2	3			1	1	1		2						
4. Prevention and control potential	ii	3			1	1	1		2						
5. Socio-economic impacts	ii	3			1	1	1		3						
Totals - Initial ratings	Prohibited				Restricted			Watch				Non-restricted			
Number of votes					x			xxx				xxxxx			

Recommended Classification : N

Comments:

(6) Widespread, but doesn't do much damage. (5) More of a pasture weed. Horses typically don't eat it. Put on pending list (or unrestricted). (8) Pending species, non-restricted if lack of economic value not a concern for classification (otherwise watch). (9) Watch classification in barrens habitats, potentially invasive.
