We have enclosed the federal brochure summarizing these regulations for your review and urge you to read 40 CFR Part 63, Subpart BBBBBB – *National Emission Standards for Hazardous Air Pollutants for Area Source Category: Gasoline Distribution Bulk Terminals, Bulk Plants and Pipeline Facilities* and 40 CFR Part 63, Subpart A – *National Emission Standards for Hazardous Air Pollutants for Source Categories, Subpart A – General Provisions* to determine your facility's specific regulatory requirements.

(If you also have a gas dispensing facility, you may also want to see: 40 CFR Part 63, Subpart CCCCCC – *National Emission Standards for Hazardous Air Pollutants for Area Source Category: Gasoline-Dispensing Facilities*.)

The regulations in their entirety can be found at:

<http://www.epa.gov/ttn/atw/area/arearules.html#current>.

This rule requires emission limits and management practices for storage tanks, cargo tanks, loading racks and equipment leaks. *Note: These requirements are independent of any existing state regulations for your facility.*

**ALL QUESTIONS REGARDING THIS REGULATION SHOULD BE ADDRESSED TO THE REGION V OFFICE OF USEPA AT 312/353-2088.**
