Large Game	Prohibited	Prohibited	

Public Safety Team Narrative: The parcel to be purchased is very small, totaling .22 acres, and is located in the downtown area within the municipal boundaries of the City of Waterloo. The parcel is bordered by the Mauneshia River to the west, East Madison Street to the south, and residential lots to the east and north. Planned development of the parcel is as a trailhead and eventual paved parking lot area. Since the property is within the city limits, a city ordinance restricts the possession of firearms on public land within the city, except for law enforcement officers and persons duly licensed to carry a concealed weapon. There also is a city ordinance that restricts the discharge of firearms within the city limits and an ordinance that prohibits the shooting of an arrow by hand or by any other means at any person or at, in or into any building, street, sidewalk, alley, highway, PARK, playground, or other public place within the City.

Allowance of hunting would create a user conflict and public safety issue due to the physical characteristics and small size of the property, the high activity and planned future use of the property by the population as a trailhead and overflow parking area for downtown businesses, and the parcel's proximity to a public road, vehicles, and dwellings occupied by humans.

Additionally, the southern edge of the property is bordered by a roadway and would prevent hunting or the discharge of a firearm, arrow from a bow, or bolt from a crossbow, within 50 feet of the roadway's center per State regulations. The entire property is also within 100 yards of a building devoted to human occupancy, which due to State regulations, prevents the discharge of a firearm within 100 yards of a building devoted to human occupancy while on lands you do not own (including public lands and public waters) without the permission of the owner or occupant of that building.

Public Safety Factors Considered: Check all that apply.

- The sponsor is within its own municipality boundary
- Parcel is within 100 yards of building devoted to human occupancy
- Parcel is within 50 feet of the center line of highways & roads
- Parcel is within 1700 feet of school grounds, hospital, or sanatorium
- Ordinance exists –
 - Discharge or carrying a weapon
 - Hunting within a park
 - Throwing or shooting missiles, arrows, spears, etc.
- Parcel is subjected to a non-sponsor ordinance
- Parcel is adjacent to a parcel where the NBOA's to be prohibited already exists.
- Parcel is adjacent to a public waterway.
- Visitor's expectations of safety at the site, which includes user conflicts that may create public safety issues and impact one or more NBOA's activities. Describe:

<p>Public Safety Team Narrative: The parcel to be purchased is very small, totaling .22 acres, and is located in the downtown area within the municipal boundaries of the City of Waterloo. The parcel is bordered by the Mauneshia River to the west, East Madison Street to the south, and residential lots to the east and north. Planned development of the parcel is as a trailhead and eventual paved parking lot area. A guard rail will also be installed to buffer the trailhead with the river.</p> <p>Even though the property is within the city limits, there appears to be no city ordinance restricting the placement of traps on the property, but the entire property is within 100 yards of a building devoted to human occupancy, which per State regulations, restricts the setting, placing, or operating of any body-grip trap greater than 60 square inches or any snare or cable restraint, regardless of the size of the noose, within 100 yards of any building devoted to human occupancy without the owner's consent.</p> <p>Other than the above mentioned restriction, legal trapping should remain open as there is no public safety concern. Due to the layout and topography of the property, the suitable area to trap appears to be the shoreline on the west side of the property that borders the Mauneshia River. According to the property plans, a guard rail will be installed to buffer the trailhead with the river. Even without the guard rail, there does not appear to be any type of public safety concern.</p>
