Parts of: NESE Sec. 32, T37N-R4W

Parts of NW1/4, SWNE, N1/2SW; Sec. 33, T37N-R4W of Sawyer County.

Acres 101

---

<u>Species</u>	<u>Estimated Volume</u>	<u>Advertised Value/Unit</u>
<sup>1</sup> Mixed Pulp	250 cords	30.00
Aspen	590 cords	30.00
<sup>2</sup> Spruce	280 cords	23.50

Minimum Acceptable

Bid for Entire Sale

\$31,780.00

<sup>1</sup>Mixed pulp includes 53% Red Maple, 30% Sugar Maple, and 17% Ash. Also, includes 8 MBF ash, 4 MBF red maple, 2 MBF hard maple, 2 MBF red oak, 1 MBF basswood.

<sup>2</sup>Spruce includes 69% Black Spruce, 28% White Spruce, and 3% saw log volume.

Other species not mentioned will be charged at the mixed pulp price.

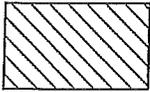

The performance bond will be 15% of the total sale value. Contract length is approximately two years.

---

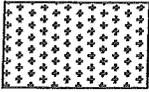

**SPECIAL SALE CONDITIONS:**

1. Equipment use will be restricted to very dry or frozen ground conditions due to wet soil conditions. General operational period will most likely be December through March.
2. No pole length skidding will be allowed in select cut or plantation area.
3. Existing woods roads will be used. Improvements will need to be made on several portions of the existing road system. New road construction must be approved by Forester. Decking will be permitted along woods roads. To deck wood along West Lane and Haystack Road special permission needs to be granted by Winter Township.
4. No slash or logging debris is allowed in the ditches of any township road. It is the responsibility of the contractor to keep the ditch lines clear of debris.
5. All slash within 100 feet of West Lane and Haystack Road shall be lopped and scattered to within 2 feet of ground.
6. Roads are not to exceed 15 ft. in width without permission from the Forester.
7. Contractor is required to close roads at locations designated on map by placing logging debris per sale prospectus.
8. No slash or logging debris will be left across blue line onto private land or Sawyer County Forest land.
9. **All additional restrictions listed in prospectus and standard contract apply unless specified.**

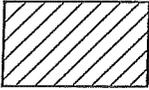

# Tract (6-12) Cheese Curd Sale

260 Acres

---

<u>Species</u>	<u>Estimated Volume</u>	<u>Advertised Value/Unit</u>
<sup>1</sup> Mixed Pulp	1770 cords	\$25.10
Basswood	120 cords	\$3.60
Aspen	400 cords	\$25.10
White Spruce	160 cords	\$20.50
Balsam Fir	100 cords	\$14.90
Sugar Maple	13 MBF	\$240.00
<sup>2</sup> Mixed Saw	9 MBF	\$114.00

Minimum Acceptable  
Bid for Entire Sale  
\$63,815.00

<sup>1</sup>Mixed pulp includes 46% hard maple, 29% red maple, 11% ash, 7% yellow birch, and 7% ironwood and elm combined.

<sup>2</sup>Mixed Saw includes 8% red maple, 32% ash, 45% basswood, 15% yellow birch.

Other species not mentioned will be charged at the mixed pulp price or misc. saw price accordingly.

---

The performance bond will be 15% of the total sale value. Contract length is approximately **three** years.

**SPECIAL SALE CONDITIONS:**

1. Equipment use will be restricted to very dry or frozen ground conditions due to wet soil conditions. General operational period will most likely be December through March.
2. No pole length skidding will be allowed within the select cut areas.
3. Existing woods roads will be used. Improvements will need to be made on several portions of the existing road system. New road construction must be approved by Forester. Decking of wood shall be kept outside the ditch line of the snowmobile trail.
4. Three inches of packed snow must be maintained on the snowmobile trail (weather permitting). All slash and logging debris must be cleared from the trail. Slash that is within 100 feet of the snowmobile trail must be lopped and scattered to within 2 feet of the ground by the contractor.
5. If decking is done on Nedli Road, which is an open road that doubles as an ATV/snowmobile trail, all slash and ends will be removed from the road and ditches concurrently with each truckload. No slash will be left in the ditches along Nedli Road.
6. Slash that is within 100 feet of Nedli Road will be lopped and scattered to within 2 feet of the ground by the contractor.
7. Contractor will be required to close roads at locations designated on the map by placing logging debris, per sale prospectus.
8. No slash or logging debris will be left across the blue line onto private land.
9. **It is the responsibility of the contractor to obtain permission to access sale through private property.**
10. Avoid government survey monuments illustrated on map.
11. **All additional restrictions listed in prospectus and standard contract apply unless specified.**

246 Acres

<u>Species</u>	<u>Estimated Volume</u>	<u>Advertised Value/Unit</u>	
<sup>1</sup> Mixed Pulp	2140 cords	17.40	
Basswood	50 cords	2.60	
Aspen	660 cords	17.40	
<sup>2</sup> Spruce	140 cords	11.60	
Hard Maple	5 MBF	234.00	
Red Maple	5 MBF	117.00	Minimum Acceptable
Ash	9 MBF	86.00	<u>Bid for Entire Sale</u>
White Birch	20 MBF	86.00	\$ 55,038.00
<sup>3</sup> Mixed Saw	3 MBF	105.00	

<sup>1</sup>Mixed pulp includes 41% hard maple, 24% red maple, 15% ash, 4% yellow birch, 14% white birch, and 2% elm, ironwood, cherry, and oak.

<sup>2</sup>Spruce includes 88% spruce and 12% balsam fir.

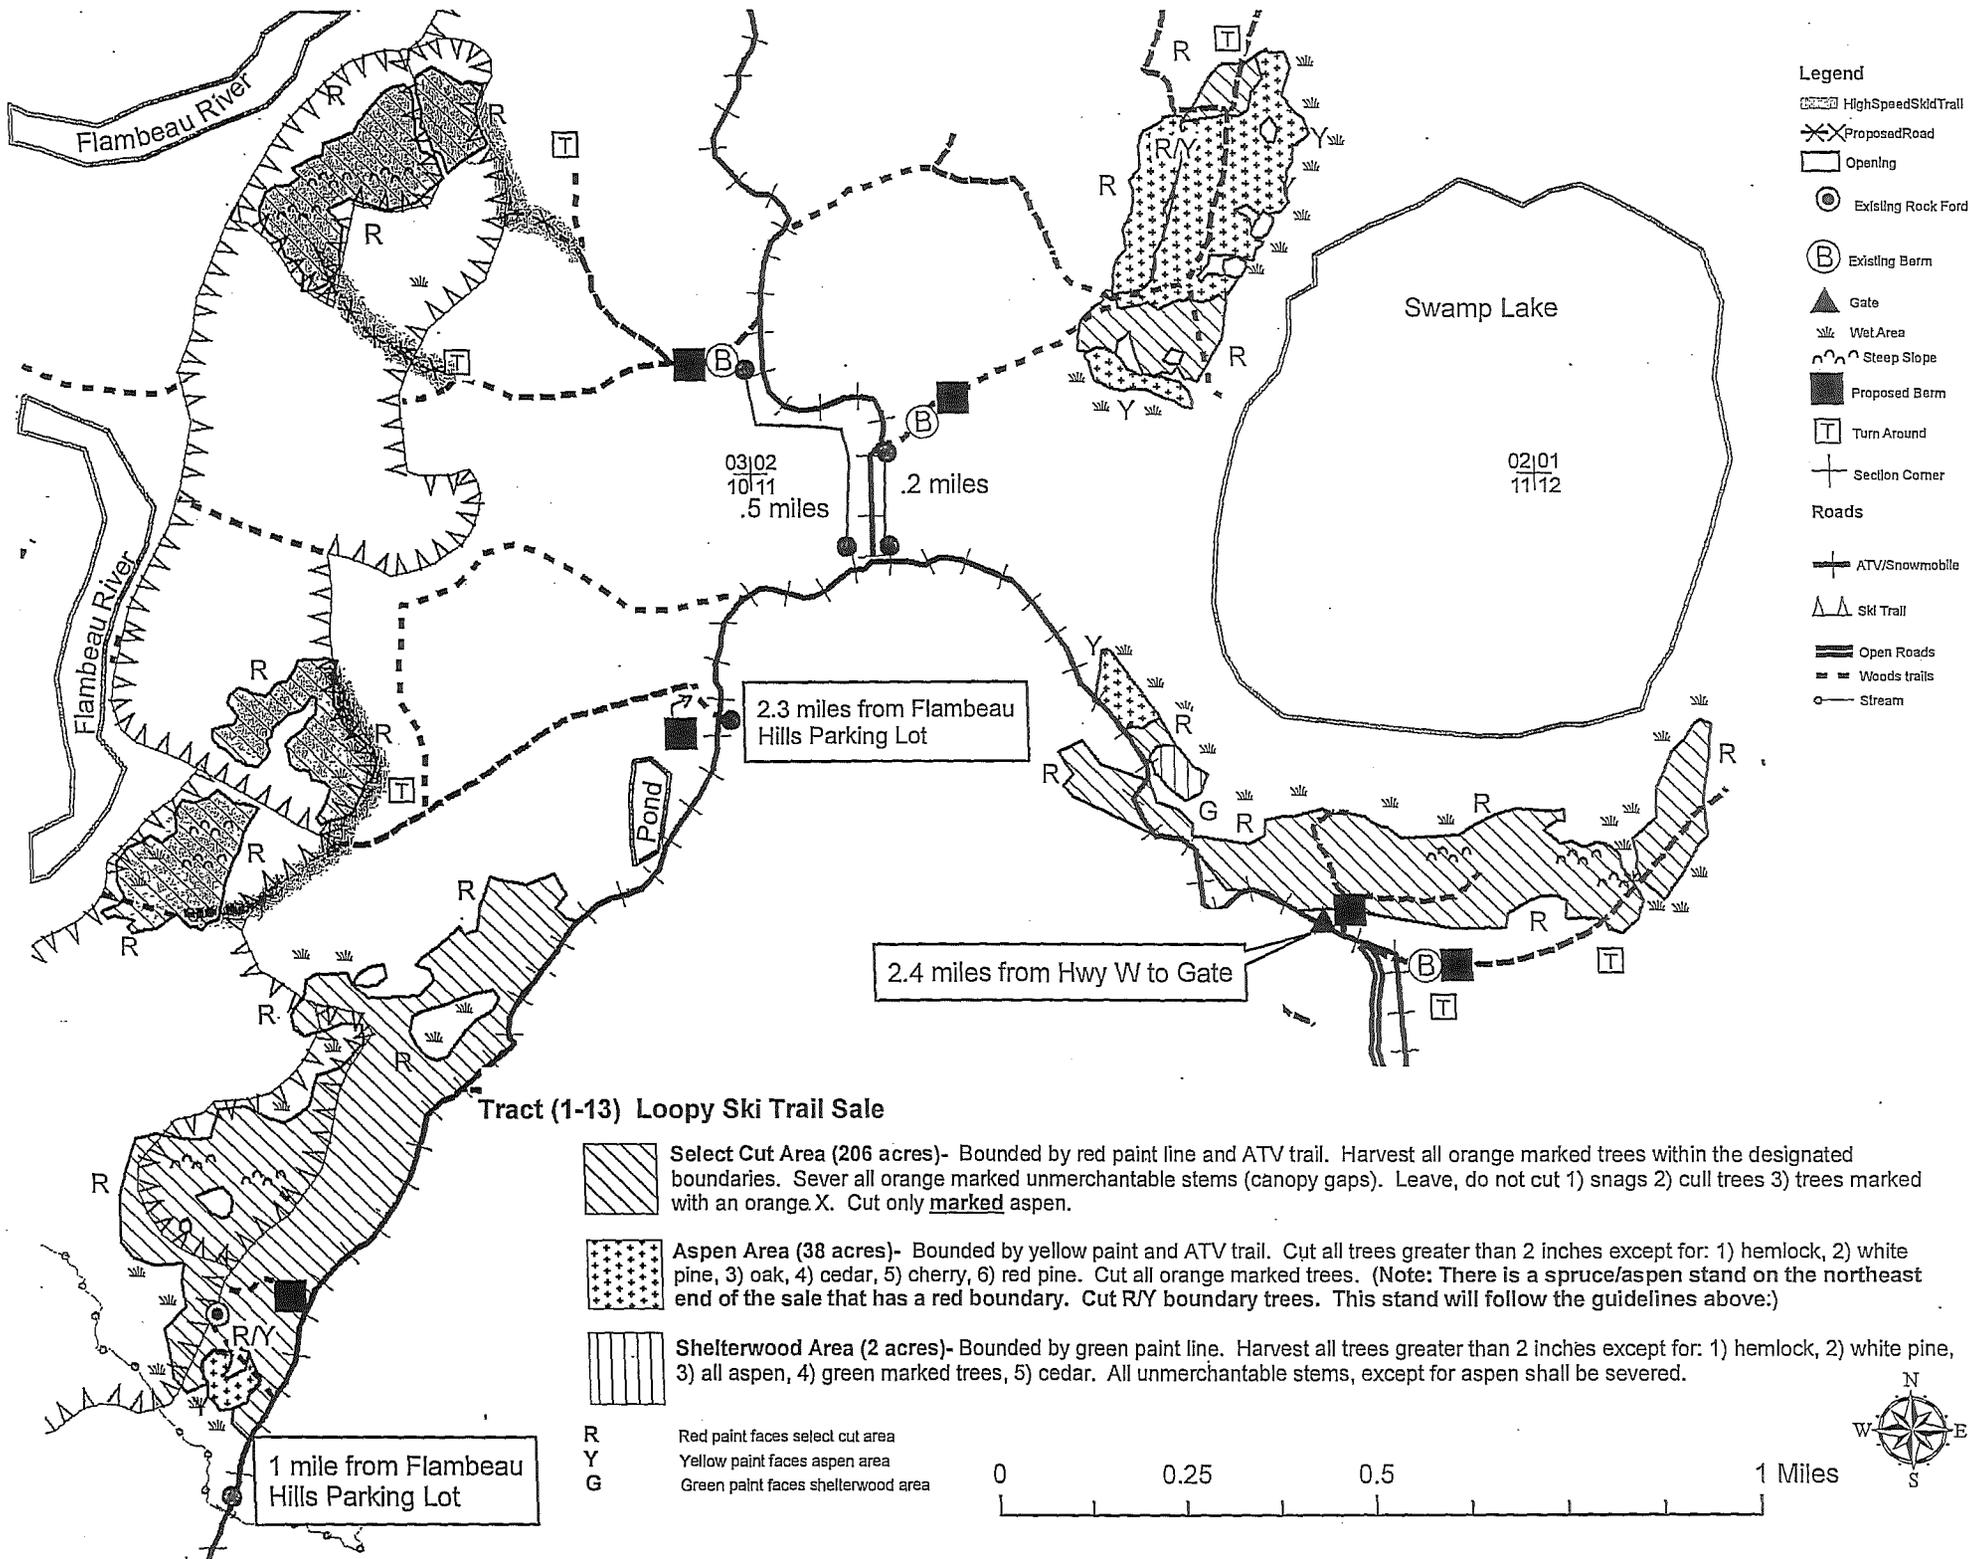

<sup>3</sup>Mixed Saw includes 2 MBF Basswood and 1 MBF Yellow Birch.

Other species not mentioned will be charged at the mixed pulp or mixed saw price accordingly.

The performance bond will be 15% of the total sale value. Contract length is approximately three years.

**SPECIAL SALE CONDITIONS:**

1. Shaded areas shall be harvested between September 9<sup>th</sup> and December 13<sup>th</sup> of contract period. (Due to ski trail and Flambeau River Scenic Management Area restrictions.) In the remaining portion of the sale equipment use will be restricted to very dry or frozen ground conditions due to wet soil conditions. General operational period for these areas will most likely be December through March.
2. No pole length skidding will be allowed in the shelterwood or select cut areas.
3. The ski trail will **NOT** be used as a main haul road and skidding on the trail should be limited. The use of high speed skid trails is optional, the routes have been highlighted on the map. The condition of the ski trail is the responsibility of the contractor, it will be returned to the condition it was or better. The contractor will be responsible for leveling the trail at the end of each year of contract.
4. Existing woods roads will be used. Improvements will need to be made on several portions of the existing road system. Decking will be permitted along woods roads. Any decking of wood along ATV/snowmobile trail shall not impede the traffic.
5. Slash that is within 100 feet of open road, ski trail, ATV/Snowmobile trail shall be lopped and scattered to within 2 feet of the ground.
6. Contractor is required to close road at the locations designated on the map by placing logging debris, per sale prospectus.
7. No new access points will be permitted.
8. All wood decked within the shaded area, Flambeau River Scenic Area, shall be removed prior to Dec. 13 of each year of contract.
9. Contractor must notify DNR prior the September prior to harvesting. Birch Shelterwood area shall not be harvested until the DNR completes a scarification treatment. Harvest shall be completed within one year of the scarification.
10. All logging debris shall be kept off of and out of the ditch lines of the ski trail, ATV/Snowmobile trail, and open roads.
11. Turn around placement can be modified with approval from Forester.
12. **All additional restrictions listed in prospectus and standard contract apply unless specified.**

Basswood	11 MBF	85.00	
Mixed Saw <sup>2</sup>	11 MBF	95.00	

<sup>1</sup>Mixed pulp includes approx. 77% of sugar maple, 5% of red maple, 7% of ash, 8% yellow birch, and 3% ironwood, elm, cherry. <sup>2</sup>Mixed saw includes 2 MBF of red maple, 4 MBF of ash, 4 MBF of yellow birch and 1 MBF of cherry. Species not listed will be charged the mixed pulp price or mixed saw price.

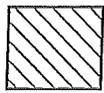

---

The performance bond will be 15% of the total sale value. Contract length is approximately two years.

**SPECIAL SALE CONDITIONS:**

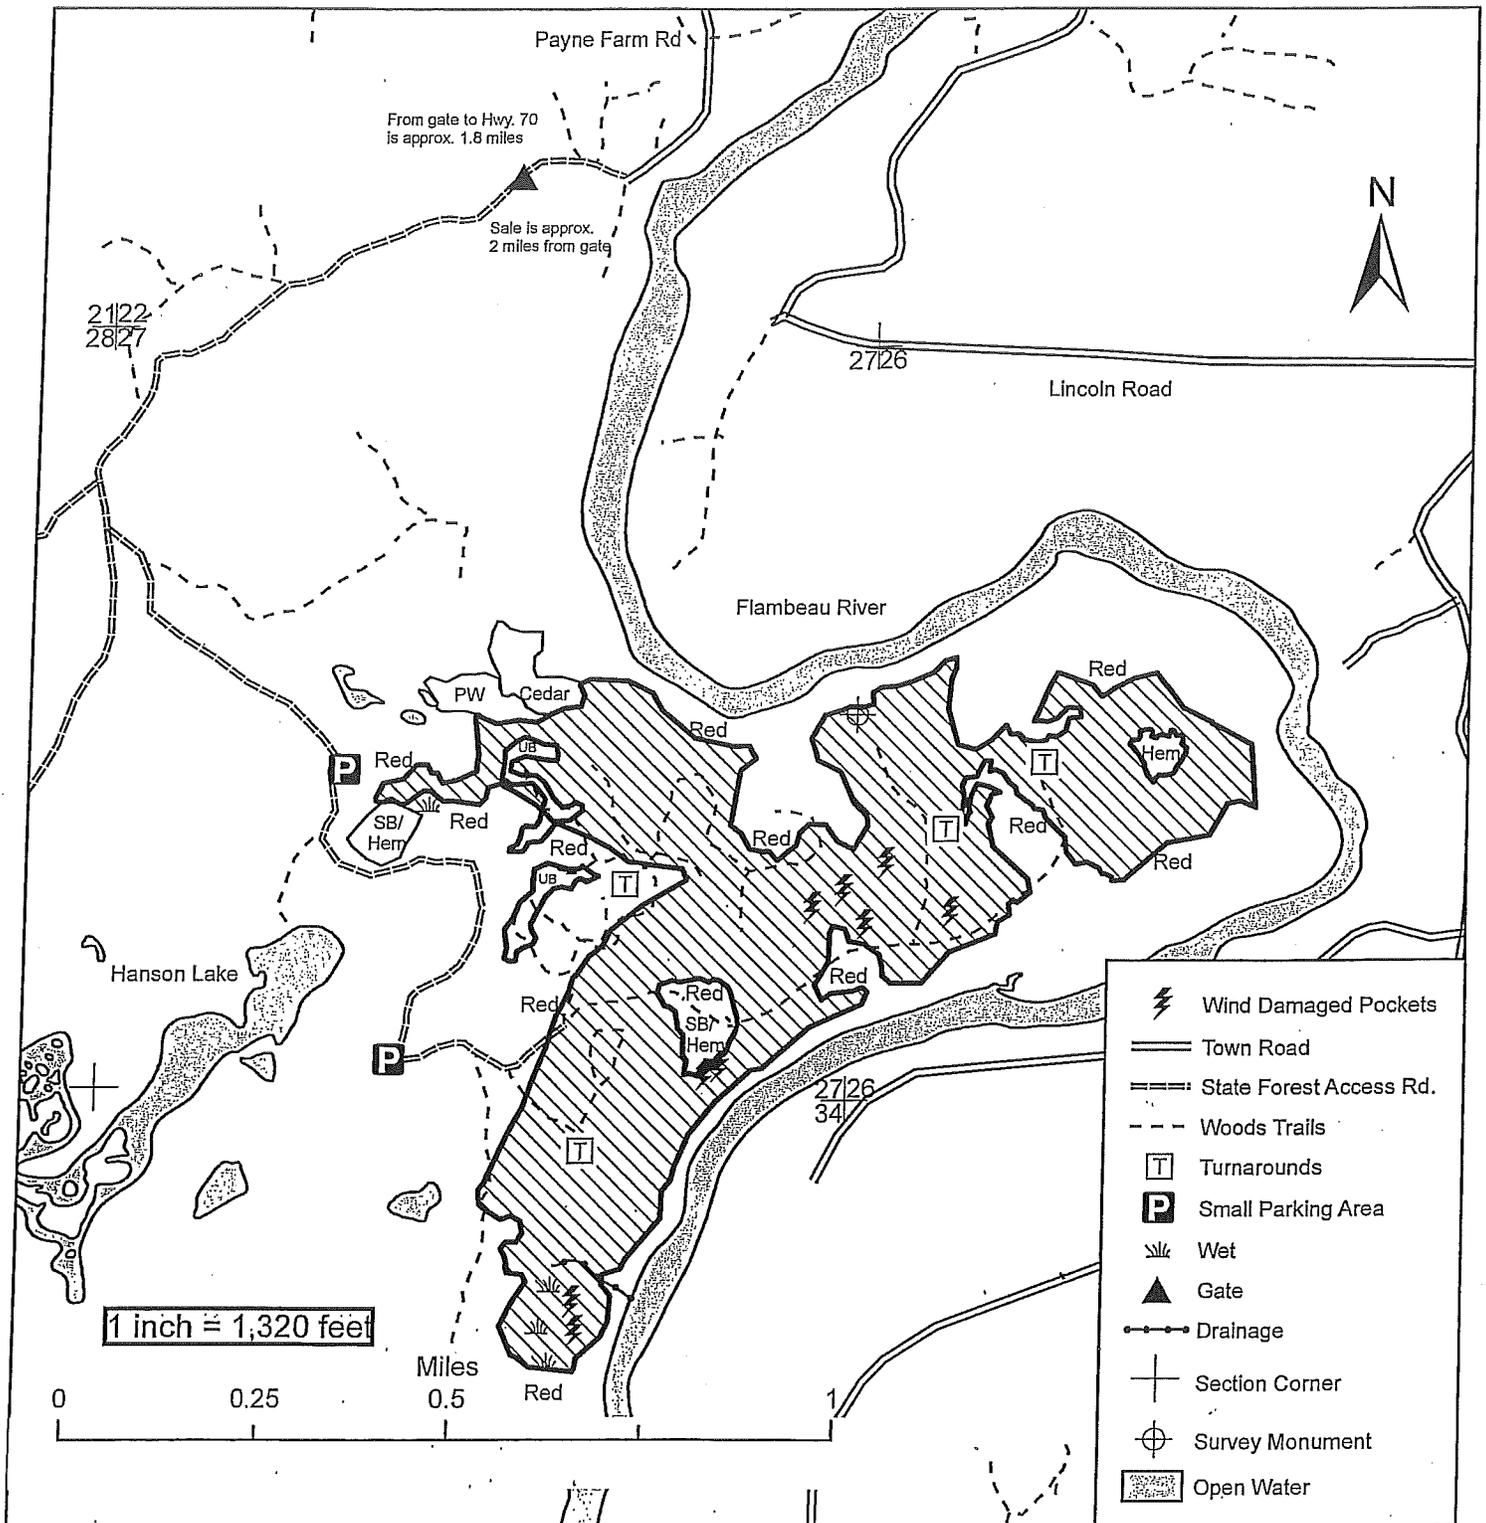

1. This sale is located in the Flambeau River Scenic Area, so equipment use will be restricted to very dry or frozen conditions during the leaf-off period only (Oct. 15<sup>th</sup> – Mar. 31<sup>st</sup>). Some areas will require frozen conditions.
2. No pole length skidding will be allowed in the select cut area.
3. Existing woods roads will be used. No new road construction. When widening the existing roads, the roads shall be widened on the side away from the Flambeau River.
4. Location of turn arounds is limited to proposed layout shown on prospectus map. Modifications can be made with approval from Forester.
5. Slash that is within 100 feet of Flambeau River will be lopped and scattered to within 2 feet of the ground by the contractor.
6. No slash will be left on or in ditch lines of the State Forest Access Road. Any damage done to the State Forest Access Road or the ditch lines is the responsibility of the contractor.
7. Do not harvest current fallen dead trees (Coarse Woody Debris – CWD). The CWD can be cut and moved for skidding purposes, but it must remain on site. Do not cut snag tree, unless it is a safety concern. Only harvest orange marked trees within the wind-damaged pockets illustrated on prospectus map. Map shows approximate locations of the wind damaged pockets.
8. It is the responsibility of the contractor to plow snow on the state forest access road.
9. Avoid government survey monuments illustrated on prospectus map.
10. **All additional restrictions listed in prospectus and standard contract apply unless specified.**

**Tract 7-13 (Wind Tunnel Sale) – 212 acres**

Select Cut Area (212 acres) -Bounded by red paint line. Harvest all orange marked trees within the designated boundaries. Sever all orange marked unmerchantable stems (canopy gaps). Leave, do not cut 1) snags, 2) cull trees, 3) trees marked with an orange X.

**Red** Red paint is the outside boundary of entire sale. The red paint faces the select cut area.

Minimum Acceptable

Bid for Entire Sale

\$34,422.00

<sup>1</sup>Mixed pulp includes 61% hard maple, 23% red maple, 15% ash, 1% white birch/ironwood. Mixed pulp also includes 13MBF of saw timber. (4 MBF hard maple, 2 MBF red maple, 2 MBF basswoods, 4 MBF ash, and 1 MBF white birch.)

Other species not mentioned will be charged at the mixed pulp price.

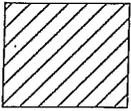

---

The performance bond will be 15% of the total sale value. Contract length is approximately two years.

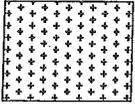

**SPECIAL SALE CONDITIONS:**

1. Equipment use will be restricted to frozen ground conditions due to wet soil conditions and new snowmobile trail construction.
2. No pole length skidding will be allowed in the select cut areas.
3. Snowmobile trail will be the main haul road for the sale.
4. Existing woods roads will be used. Improvements will need to be made on several portions of the existing road system. Decking will be permitted along woods roads. Roads through Research Area cannot be used.
5. Slash that is within 100 feet of snowmobile trail shall be lopped and scattered to within 2 feet of the ground. All slash and logging debris must be cleared from snowmobile trail and ditches concurrently with each truckload.
6. No new access points will be permitted.
7. Do not leave slash across red line into Research Area.
8. The pushed out stumps from snowmobile trail access construction will be addressed by FRSF Staff prior to sale start up.
9. Tower Hill Road is a snowmobile trail. 3" of packed snow will be maintained on snowmobile trail, weather permitting. Wood will be decked far enough off of trail so as NOT to impede snowmobile traffic or endanger snowmobilers.
10. **All additional restrictions listed in prospectus and standard contract apply unless specified.**

**Tract (8-13) Old W Sale**

**Select Cut Area (142 acres)** -Bounded by red paint line. Harvest all orange marked trees and merchantable ironwood within the designated boundaries. Sever all orange marked unmerchantable stems (canopy gaps). Leave, do not cut 1) snags 2) cull trees 3) trees marked with an orange X. Cut only **marked** aspen.

<u>Species</u>	<u>Estimated Volume</u>	<u>Advertised Value/Unit</u>
<sup>1</sup> Mixed Pulp	1750 cords	30.00
Basswood	140 cords	4.60
Aspen	60 cords	30.00
Hard Maple	17 MBF	300.00
Red Maple	6 MBF	150.00
Basswood	23 MBF	121.00
<sup>2</sup> Mixed Saw	15 MBF	135.00

Minimum Acceptable  
Bid for Entire Sale  
\$65,752.00

<sup>1</sup>Mixed pulp volume includes 74% hard maple, 9% red maple, 10% ash, 5% yellow birch and 1% ironwood, red oak, and elm combined.

<sup>2</sup>Mixed saw volume includes 12 MBF ash, 3 MBF yellow birch, and 260 BF of red oak.

Other species not mentioned will be charged at the mixed pulp or mixed saw price.

---

The performance bond will be 15% of the total sale value. Contract length is approximately two years.

**SPECIAL SALE CONDITIONS:**

1. The entire sale is located within the Flambeau River Scenic Management Area. The sale will be restricted to very dry to frozen ground conditions due to wet soil conditions between October 15<sup>th</sup> and April 1st.
2. No pole length skidding will be allowed in the select cut areas.
3. Existing woods roads will be used. Improvements will need to be made on several portions of the existing road system. Decking will be permitted along woods roads. Any decking of wood along Flambeau Road shall be located 100 feet from road. Permission from the Cedar Rapids Township will need to be obtained by contractor to deck any wood along Flambeau Road.
4. Slash that is within 100 feet of Flambeau Road, Beaver Dam Landing Road, Flambeau River, and Beaver Dam Landing shall be lopped and scattered to within 2 feet of the ground.
5. Contractor is required to close road at the locations designated on the map by placing logging debris, per sale prospectus.
6. No new access points will be permitted.
7. All logging debris shall be kept off of and out of the ditch lines of Beaver Dam Landing Road and Flambeau Road.
8. **All additional restrictions listed in prospectus and standard contract apply unless specified.**

**Tract (3-14) Triple 8 Sale**

Parts of: N1/2NW, NWNE Sec. 18, SE, S1/2SW, SENE Sec. 7,  
W1/2NW, NENW Sec. 8, T36N R4W of Rusk County.

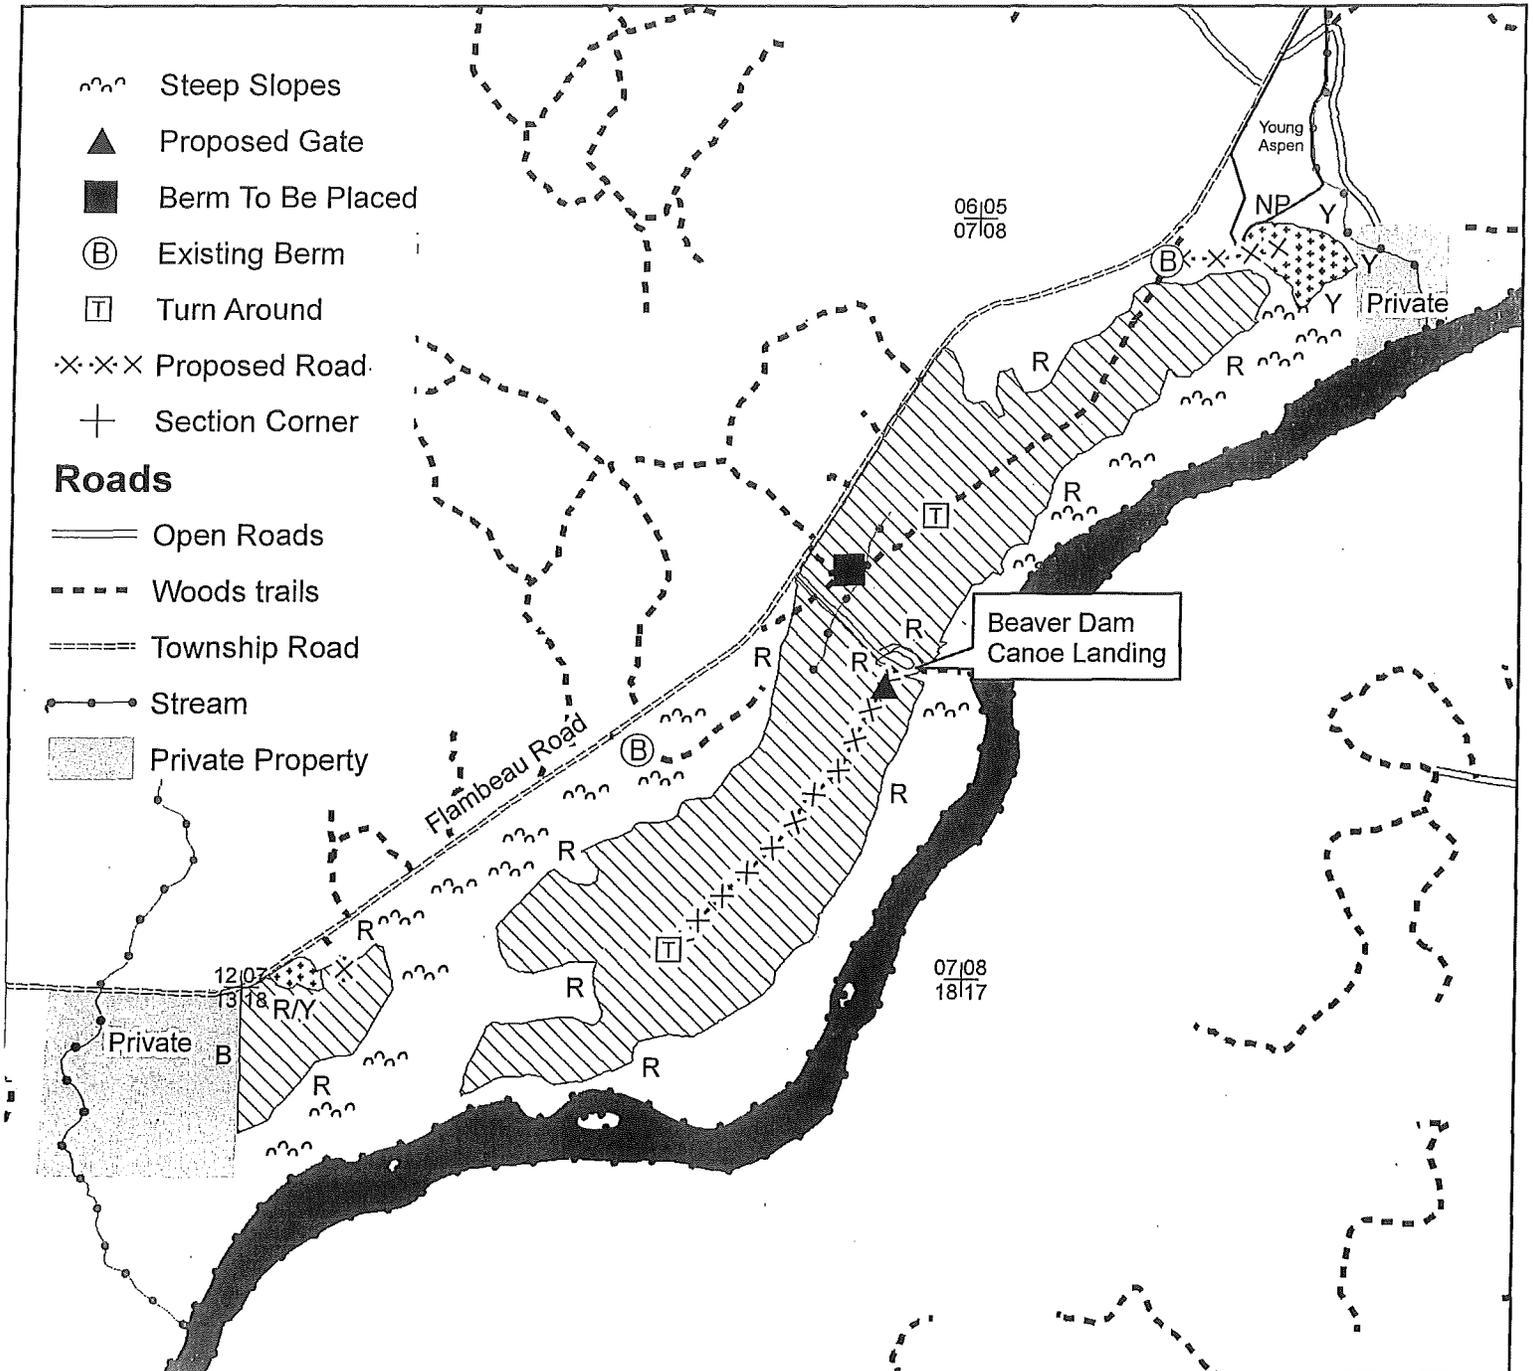

**Select Cut Area (188 acres)**- Bounded by red paint and Flambeau Road. Harvest all orange marked trees within the designated boundaries. Sever all orange marked unmerchantable stems (canopy gaps). Leave, do not cut 1) snags, 2) cull trees, 3) trees marked with an orange X. Trees within 100feet of the river and Beaver Dam Landing have been marked on one side facing away from the river and landing. Cut only marked aspen.

**Aspen Area (7 acres)**- Bounded by yellow paint, blue paint, and Flambeau Road. Cut all trees greater than 2 inches except for: 1) hemlock, 2) white pine, 3) cedar, 4) cherry, or 5) oak.

Minimum Acceptable

Bid for Entire Sale

\$25, 804.00

<sup>1</sup>Mixed pulp includes 60% hard maple, 15% red maple, 6% ash, and 14% yellow birch, and 5% elm, white birch, black cherry, and ironwood combined.

<sup>1</sup>Mixed pulp also includes 7 MBF hard maple, 2 MBF red maple, 5 MBF Ash, 600 BF yellow birch, 500 BF white birch, and 2 MBF black cherry.

Other species not mentioned will be charged at the mixed pulp price.

---

The performance bond will be 15% of the total sale value. Contract length is approximately two years.

**SPECIAL SALE CONDITIONS:**

1. Equipment use will be restricted to December 1-March 15 due to wet soil conditions and management objectives for the area.
2. No pole length skidding will be allowed within the select cut areas.
3. Existing woods roads will be used. New road construction is limited to proposed road layout shown on prospectus map. Modifications can be made with approval from Forester.
4. Decking will be permitted outside the 400 foot buffer of the river.
5. Slash that is within 100 feet Flambeau River shall be lopped and scattered to within 2 feet of the ground.
6. No new access points will be permitted.
7. Bear Road is also a snowmobile trail. 3" of packed snow will be maintained on snowmobile trail, weather permitting. The trail and ditches will be kept free of debris.
8. Contractor will be required to close gate when sale is not in operation and/or wood is not being hauled. Motorized vehicle access in this area is restricted to only forest management and game improvement activity.
9. Drainage area as indicated on map will need to be filled with snow, weather permitting. If snow is not available, timber mats or poles will be needed.
10. All logging debris shall be kept off of and out of the ditch lines of the hunter walking trails and open roads.
11. **All additional restrictions listed in prospectus and standard contract apply unless specified.**

<sup>1</sup>Mixed pulp includes 60% red maple, 17% ash, 14% hard maple, 7% yellow birch and 2% white birch.

Basswood includes 1 MBF Basswood.

<sup>2</sup>Spruce volume includes 90% white spruce, 8% tamarack, and 2% black spruce. It also includes 7 MBF white spruce and 3 MBF T.

<sup>3</sup>Misc. Saw volume includes 2 MBF basswood, 8 MBF yellow birch, and 300 BF of white birch.

Other species not mentioned will be charged at the mixed pulp or Misc. Saw price accordingly.

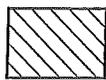

---

The performance bond will be 15% of the total sale value. Contract length is approximately two years.

**SPECIAL SALE CONDITIONS:**

1. Equipment use will be restricted very dry or frozen ground conditions due to wet soil conditions. General operational period will most likely be December through March.
2. No pole length skidding will be allowed in the select cut areas or spruce plantation thinnings.
3. Wood shall be decked on existing woods roads or proposed roads. Wood from swamp hardwood strips can be decked on West Lane with permission from Winter Township.
4. Slash that is within 100 feet of West Lane shall be lopped and scattered to within 2 feet of the ground.
5. Contractor is required to close road at the locations designated on the map by placing logging debris, per sale prospectus.
6. No slash or logging debris will be left across the blue line onto private land.
7. \***Caution:** Survey monuments are located within the sale area. Do not damage.
8. All conditions of the in-stream crossing permit will be followed by the contractor.
9. Gaining access through the private property is the responsibility of the contractor.
10. Landings shall be created in designated map locations. Landing size shall not exceed 100ft. by 200 ft. These landings will be used in the future by recreationalists, as hunting camps.
11. All logging debris shall be kept off of and out of the ditch lines of the township road.
12. **All additional restrictions listed in prospectus and standard contract apply unless specified.**

Aspen	800 cords	\$16.70/cd
Balsam	100 cords	\$15.90/cd

**Minimum Acceptable Bid for Entire Sale: \$20,410.00**

**Note:** Contract length will be 2 years. Extension of contract may be granted if weather conditions inhibit access. A performance bond in the amount of 15% of the total bid amount will be required of the winning bidder and is due 6 weeks from date of bid opening.

**Harvest Prescriptions**

- **Regeneration Harvest (63 acres)**
  - Cut all trees 2" DBH and larger except for pine, cedar, hemlock, and oak.
  - Utilize all trees that will make one or more 100" pulp stick to a 4" top
- Sale access will be from Price Lakes Rd. and will utilize wildlife area roads and snowmobile trail to reach southern portions of sale.
- Sale boundaries include yellow paint line, black spruce swamp, tamarack/alder, and marsh grass.
- All BMPs for water quality will be followed and rutting policy will be enforced per the contract. Several islands will require frozen ground conditions to access.

**Integrated Resource Considerations:**

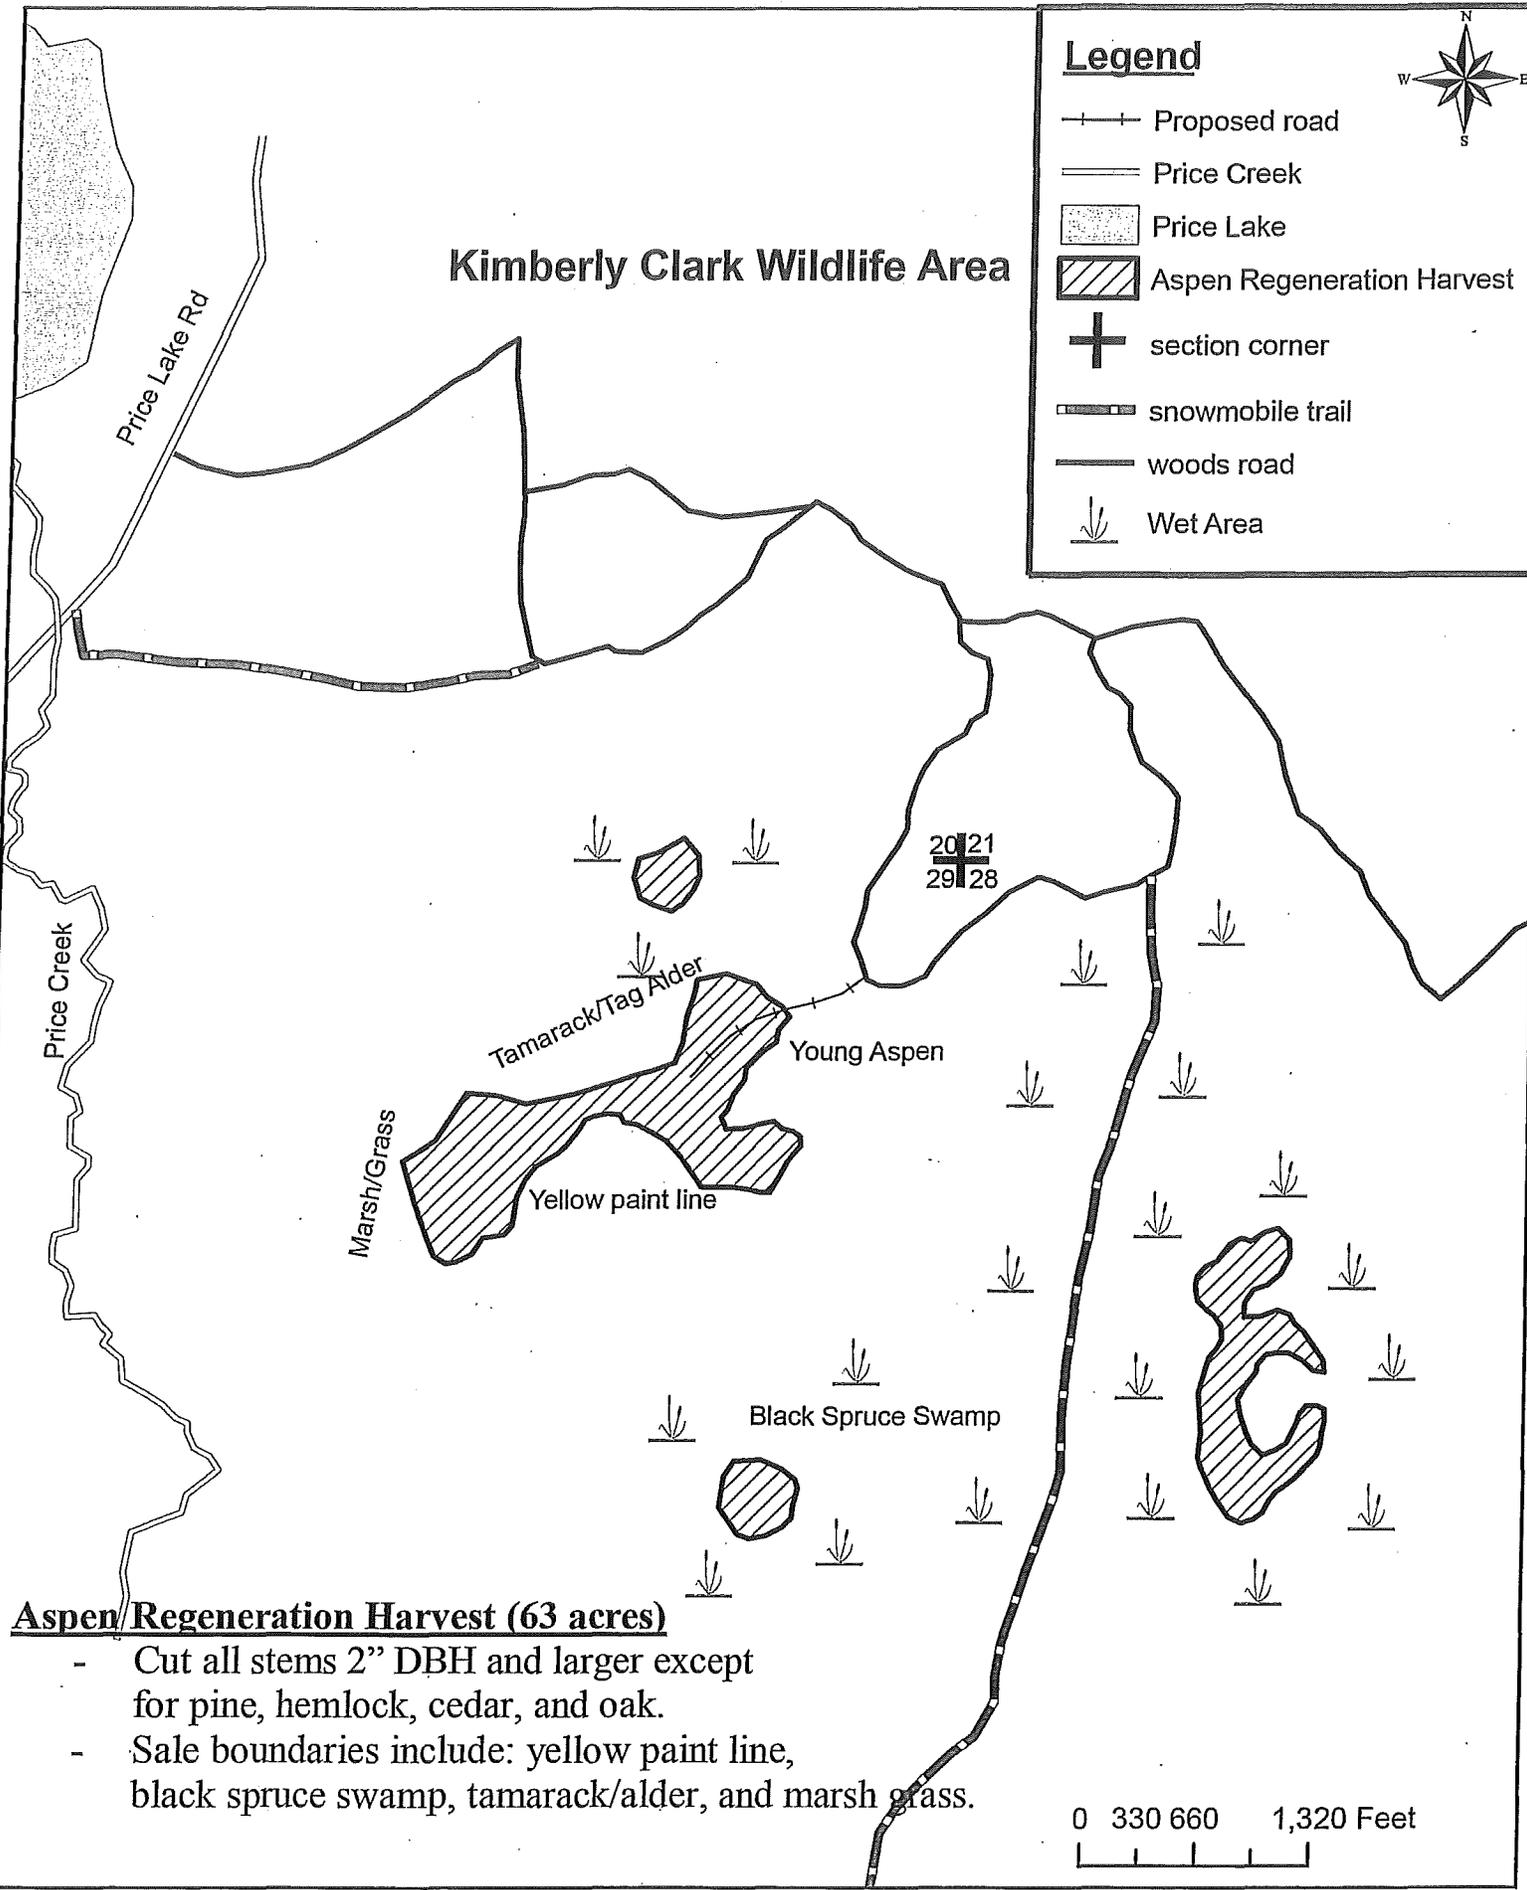

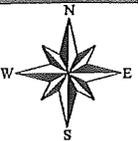

Any road location and construction is subject to review and approval by the Department of Natural Resources. Prior to the timber sale closeout procedure, all forest trails and logging roads will used in the harvest operation must be level and free of ruts.

<u>Species</u>	<u>Estimated Volume</u>	<u>Advertised Value/Unit</u>
Aspen	650 cords	\$ 20.70 /cd
Misc. Hardwood*	350 cords	\$ 22.50 /cd
Basswood	120 cords	\$ 3.60 /cd
Mixed Hardwood	15 MBF	\$120.00 /MBF

**Minimum Acceptable Bid for Entire Sale: \$ 23,562.00**

\*Misc Hardwood is approx. 65% maple, 25% ash 10% white and yellow birch

Contract length is approximately two years. Although access is possible through State ownership, wet areas pose challenges. The swampy area would require pushing in a roadway, freezing and placement of a mat to cross the intermittent stream. The snowmobile trail also has wet areas. Contractor may be able to obtain better access on their own through private land

**Harvesting Prescription:**

Clearcut Area: Harvest all trees 2" DBH and larger. **EXCEPT: Oak, White Pine, Spruce, Hemlock, Tamarack and Elm.**

Selection Harvest Area: Harvest all orange paint marked trees.

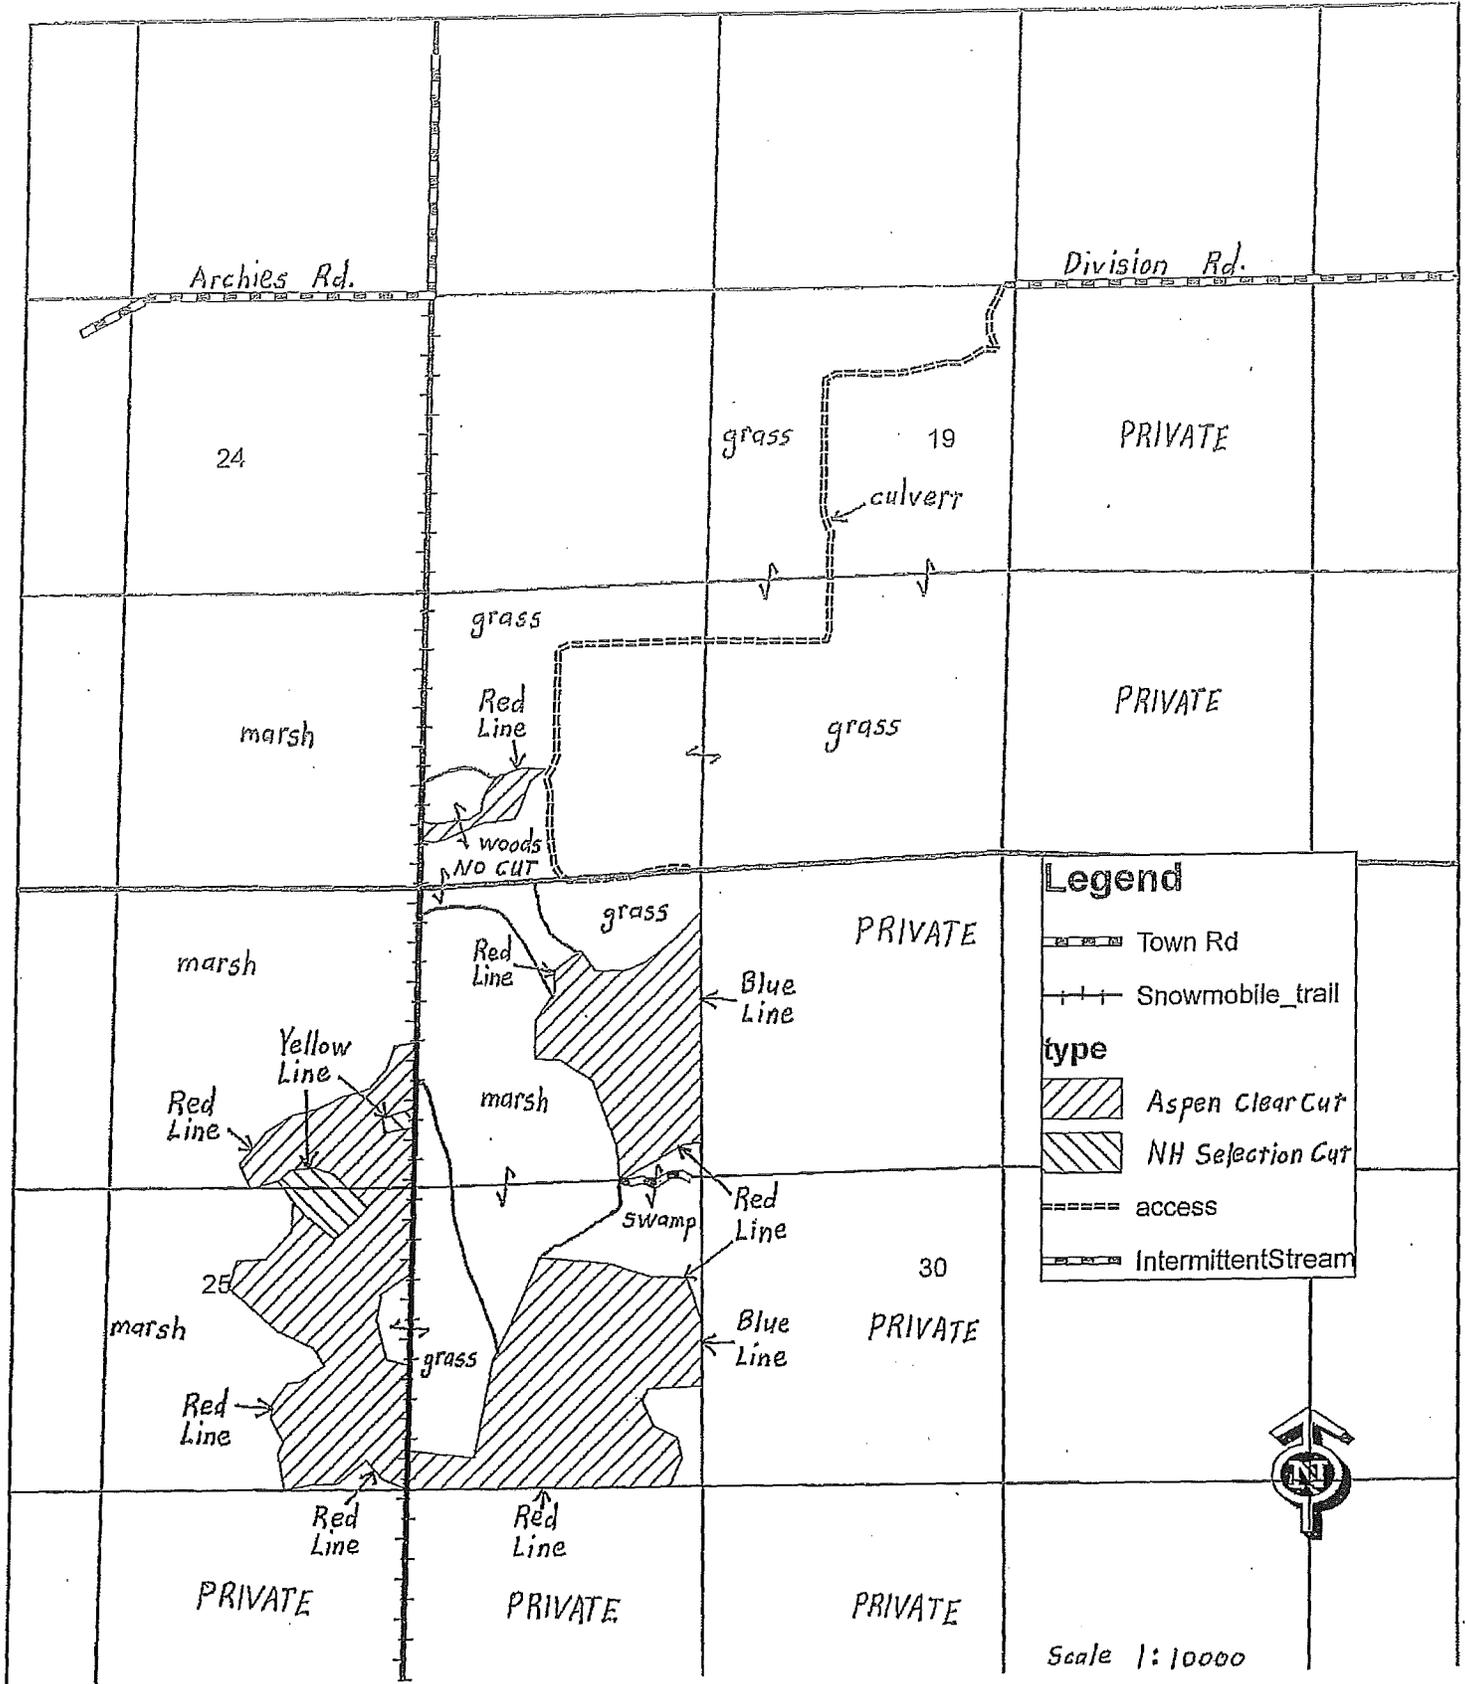

***ALL AREAS:*** Utilize all cut trees that will make one or more 100" pulpwood stick to a 4" top D.I.B. Harvesting will only be permitted between December 1 and February 29, or during periods of frozen ground condition.

**Integrated Resource Considerations:**

All snowmobile trails used by the contractor during the harvesting operation must be kept open, free of slash and logging debris and snow covered. Any road location and construction is subject to review and approval by the Department of Natural Resources. Prior to the timber sale closeout procedure, all forest trails and logging roads used in the harvesting operation must be free of slash, logging debris, ruts and be level.

White Pine	5 mbf	\$ 115.00 mbf		

Total Bid \_\_\_\_\_

Harvesting Prescriptions: Leaf off logging only.

Clear Cut with Reserves

Cut all merchantable aspen and mixed hardwood. Cut all other hardwood stems 1 inch and larger. Cut all orange marked red pine and white pine. Utilize pulp wood down to a 4 inch D.I.B. Utilize pine saw logs to 9 inch D.I.B. and mixed hard wood saw logs to 10 inch D.I.B. All saw logs are to be scaled on the landing by DNR forester before removal unless prior arrangements have been made with the forester. Red pine logs will be converted to cords equivalent. Do not cut any oak.

Recreation Trail Must be kept free of slash and debris at all times and restored back to presale condition when the sale is completed.

Aesthetic Zone All tops and slash shall be removed with-in 50 feet of County RD.B and lopped to with-in 18 inches with-in 100 feet of town road. Care should be taken during the harvesting operation to minimize any detrimental effects to the soils.

Forest roads and trails Before the timber sale is closed, all forest skid trails and logging roads used in the harvesting operation must be leveled to presale conditions or better.

Integrated Resource Considerations -

All existing and future logging roads must be kept free of slash and logging debris. Any new forest road location or construction is subject to review and approval by the D.N.R. Forester. All slash must be removed from adjacent private land ownership, and any slash or logging debris accumulated on the landings must be lopped and scattered. Depositing slash and/or logging debris in any wetland or RMZ is prohibited. Decking of cut forest products will not be permitted on any town road right-of-way, unless prior approval is granted by the Town Chairman.

BMP's

Wisconsin's Best Management Practices (BMP's) for Water Quality are required on all State timber sales. BMP manuals are available from your DNR office. When constructing roads, cutting timber, or skidding timber near or across wetlands, lakes, streams, or intermittent drainages know your BMP's and follow them.

LITTERING

Sale area shall be kept free of litter at all times. Enforcement action will be taken for noncompliance.

SURVEY CORNERS

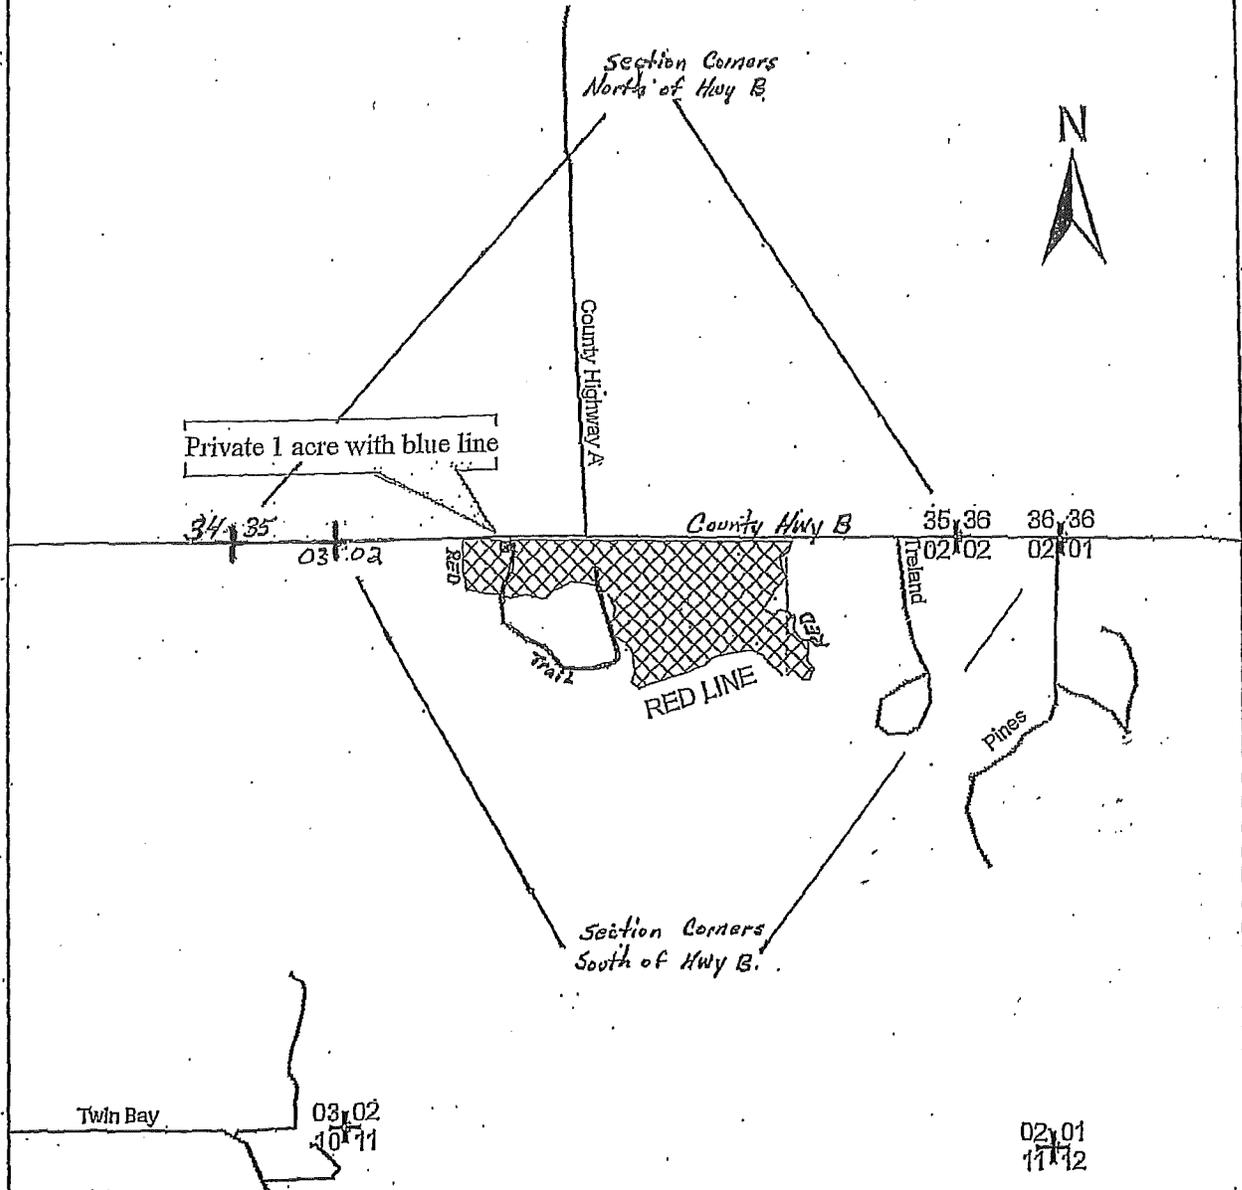

Do not disturb survey corners, monuments, or surrounding witness trees.

ROADS

As per State Statute 86.02 contractor is liable for damages made to town, county, or state highway. As per SS. 86.04, timber or other objects cannot be placed on any highway right-of-way. It is recommended that landings be constructed no closer than 100' town, county, or state highways.

**2014 MAY TIMBER SALES**  
**FLAMBEAU RIVER STATE FOREST**  
W1613 COUNTY ROAD W  
WINTER, WI 54896  
(715) 332-5271

Sealed bids for sales in this packet will be received by the Wisconsin Department of Natural Resources, Flambeau River State Forest, at the Flambeau Forest Headquarters, Winter, Wisconsin until **1:30 p.m. on May 29, 2014** and publicly opened immediately thereafter for timber stumpage on the Flambeau River State Forest and other state lands. Sealed bids for the other state lands should also be received at the Flambeau Forest Headquarters. Sealed bids for sales not sold on May 29<sup>th</sup> will be received at the Flambeau Forest Headquarters until **1:30 p.m. on July 1, 2014**.

**NO BID BOND REQUIRED. See Condition #8 under Bidding and Finance.**

For inspection of Flambeau River State Forest timber sales for bidding, ATVs will be permitted **except for the east access road of The Buffer Sale**. This trail is walk-in only for inspecting sale. **For access to Prison Camp South Sale**, please call the Flambeau River State Forest at 715-332-5271.

The sales on the Flambeau River State Forest will use the mill scale ticket system for pulpwood. Sales with saw logs included in the pulp price will also use the mill scale ticket system.

The contractor shall notify a DNR Forester or Forest Technician 3 days prior to beginning work on sale. Before work begins on sale, contractors will be required to have a pre-sale meeting with either a Forest Technician or a Forester.

**The State does not plow snow on state forest roads.** If a sale is located on a state forest road, the contractor is responsible for plowing the snow. The following are state forest roads: Tower Hill, Bass Lake, Price Creek, Hines Grade, Bear Creek, Skinner Creek, and Hervas.

**Operational Trees**

If an operational tree(s) is(are) cut, the contractor is required to contact the Forester either by leaving a message at the office or by leaving a note in the lock box the day the operational tree(s) is(are) cut.

**Forest Certification**

The sales in this packet are certified to the standards of the Forest Stewardship Council (FSC) – Certificate **#SCS-FM/COC-00070N** and the Sustainable Forestry Initiative (SFI) – Certificate **#1Y941-S1**. Forest products from these sales may be delivered to the mill as “FSC and/or SFI certified” so long as the contractor hauling the forest products is chain-of-custody (COC) certified or covered under a COC certificate from the destination mill. The purchaser is responsible for maintaining COC after leaving the sale area.

***All tracts in this packet meet Forest Certification.***

**TRAINING REQUIREMENT**

The purchaser shall ensure that the actual logging contractor engaged in performance of this contract complies with the Wisconsin SFI (Sustainable Forestry Initiative) Training Standard as adopted by the Wisconsin SFI Implementation Committee (SCI). Criteria for the standard can be found at the website [www.fistausa.org/sfi\\_standards](http://www.fistausa.org/sfi_standards) or by contacting the Forest Industry Safety & Training Alliance (FISTA). Purchaser agrees to provide documentation to Seller that the training has been attained prior to initiating sale.

**SOIL DISTURBANCE AND RUTTING**

- a. The Purchaser agrees to take all steps and precautions to avoid and minimize soil disturbances, such as soil compaction and rutting. If soil disturbances occur, the Purchaser agrees to work cooperatively to mitigate and repair any and all instances of soil disturbance.
- b. Excessive soil disturbance (as defined in Table 1) shall not be permitted. Purchaser agrees to contact Seller in the event of an excessive soil disturbance.

*Table 1. Thresholds for soil disturbances.*

<b><u>Timber Sale Infrastructure</u></b>	<b><u>Soil disturbances are excessive if:</u></b>
<i>Roads, Landings, Skid Trails, and General Harvest Area</i>	<ul style="list-style-type: none"> <li>▪ A gully or rut is 6 inches deep or more and is resulting in channelized flow to a wetland, stream, or lake.</li> </ul>
<i>Roads, Landings, and Primary Skid Trails</i>	<ul style="list-style-type: none"> <li>▪ In a riparian management zone (RMZ) or wetland, a gully or rut is 6 inches deep or more and 100 feet long or more.</li> <li>▪ In an upland area (outside of RMZ), a gully or rut is 10 inches deep or more and 66 feet long or more.</li> </ul>
<i>Secondary Skid Trails and General Harvest Area</i>	<ul style="list-style-type: none"> <li>▪ A gully or rut is 6 inches deep or more and 100 feet long or more.</li> </ul>

**Note:** The depth is to be measured from the original soil surface to the bottom of the depression. If individual lug depressions are visible, the depth would be measured to the lesser of the two depths (the "top" of the lug). The length is measured from the start of the "too deep" section to the end of the "too deep" section. Measurements are not cumulative.

- c. Prior to sale completion the Purchaser shall mitigate and repair soil disturbances to the Seller's satisfaction.

For questions on the following properties please contact the person listed:

- Other state lands in Sawyer County** – Randy Sobraliski (715) 634-9658 ext. 3510
- Kimberly Clark Wildlife Area** – Tom Onchuck (715) 762-1358

**FLAMBEAU RIVER STATE FOREST  
AND OTHER STATE LANDS**  
General Sale Conditions

**Bidding and Financing**

1. To bid on a tract, each species must be bid on (per cord or MBF) and the minimum total sale value must be met. The advertised value (per cord or MBF) is provided as a reference value only - a bid on each species at its advertised value will automatically meet the minimum total sale value when all species are added together. A bid will be rejected if any individual species/product bid is \$0.
2. A bid must be made on all species and products listed by tract including lump sum sales.
3. All bids must be by tract number and sealed in individual envelopes marked on the outside, Bid on Tract \_\_\_\_.
4. Whole tree (chipping) bids will be adjusted by adding overrun factors to cruised volumes. Notification prior to bidding will be required. Approved areas allowing whole tree logging will be identified along with specific overrun factors to be used. If for any reason the contract is not whole tree harvested, the contractor will pay 25% more than the bid value per species that anticipated whole tree harvest. Whole tree harvest (chipping) includes all wood and bark.
5. All bids will include the following:
  - A. Tract Number
  - B. List of species to be harvested and estimated volume
  - C. Bid price, per unit for each species and product
  - D. Signature and address of each bidder
6. Persons desiring to bid on more than one tract must submit a separate bid for each tract.
7. Bids will be opened in a random order from a draw of the hat. Prior to the reading of a bid, a contractor may elect to withdraw the bid. The contractor or representative of the contractor must declare this at the bid opening before any bids for the specified tract are read.
8. **BID BOND NOT REQUIRED.** Winning bidders will have 6 weeks from the date of the bid opening to submit an acceptable performance bond to the department. If the winning bidder fails to execute the contract and submit an acceptable performance bond, the bidder shall be required to forfeit to the department an amount equal to 10% of the total bid amount. Failure to forfeit the 10% penalty will result in the bidder being considered ineligible to bid on any state timber sales for a two-year period.
9. An Irrevocable Letter of Credit may be used as a Performance Bond. *The expiration date of all letters of credit must be maintained for four full years.* Contact the Forest Headquarters for details regarding the clauses required in the letter.

**Contracts & Extensions**

1. Contracts must be signed and returned to the Flambeau River State Forest or appropriate property within 30 days of the bid letting.
2. All contracts will be issued for a period of two years, unless otherwise noted. It is understood that all contracts are expected to be completed during the initial contract. Extensions are not automatic.
3. Requests for extensions must be submitted prior to the expiration date of the contract. The performance bond may be retained if requests are not submitted by the expiration date.

**Payments**

1. Purchaser agrees to make stumpage payments within 30 days of billing, unless otherwise specified in the payment schedule.
2. Late interest penalty – Purchaser agrees to pay a late interest penalty of 1.5% for every 30 days on past due stumpage in excess of the 30 day period. In addition, failure to pay within the 30 day period will result in the Purchaser having to prepay for the remainder of the sale. Two such payment breaches, even on separate State sales, will also result in the purchaser being required to prepay on all state timber sales for a two-year duration.

### Utilization Specifications

Those sales without an increased utilization option will have the following standards:

Standard Utilization - Unless otherwise specified, standard specifications will be as follows:

Aspen pulpwood	4" top diameter
Hardwood pulpwood	4" top diameter
Softwood pulpwood	4" top diameter
Hardwood sawlogs	10" top diameter inside bark
Softwood sawlogs	8" top diameter, inside bark

Merchantable trees are those that have one or more 100 inch pulpwood sticks with a minimum top diameter of four inches.

### Cutting and Skidding Specifications

1. All timber marked or designated for cutting will be utilized whether or not the quantity is more or less than the estimated volume.
2. All decking must be done on the sale if it is not specifically designated. Permission to do otherwise must be obtained from the Forest Superintendent.
3. Any young growth bent or held down by felled trees must be promptly released.
4. The Department of Natural Resources reserves the right to stop operations if unreasonable, excessive, or avoidable damage occurs or will occur. The contractor may be held responsible to repair any or all damage.
5. Although summer logging may be permitted, during wet periods the soils may become soft and susceptible to rutting. Soils may become too wet after storms and extended wet spells. Operations will be suspended during these periods.
6. The Department of Natural Resources may change, suspend or terminate any timber sale contract or portion of contract with no penalties to the State if errors in timber sale planning or designing cause or may cause serious environmental damage, or may cause aesthetic concerns, or are not sound silvicultural practices, or violate any county, state, or federal law or regulation.
7. Any bole damage to residual trees will be considered unnecessary.
8. Trees that are marked with an "X" are not to be cut. They are leave trees. All snags will be reserved unless a safety concern, then the snags will be cut and left for coarse woody debris.
9. **Extra caution is needed to avoid damaging existing pockets of regeneration throughout select cut sale areas.** These pockets of regeneration should not have trees felled into them or skid trails run through them.
10. If collecting firewood for home, a firewood permit is required. **A permit is also required for collection of burls.**

### Slash Requirements

1. All slash requirements will be done concurrent with sale operations. For town roads, state forest roads, hunter/walker trails, and ATV/snowmobile trails, all slash and ends will be removed from the roads and ditches concurrently with each truckload.
2. No slash piles from landing operations may be left over 24" above the ground level. Piles shall be spread over the site before leaving.
3. Slash disposal will comply with the State Slash Law, Section 26.12(b), Wisconsin Statutes, and with requests regarding forest fires prevention and suppression made by the seller.

### Road and Camps

1. The locations of all roads, landings, and camps must be approved by the Forester prior to construction. A DNR Forester must be contacted at least 48 hours in advance for an appointment.
2. The sale area, including all roads and camps, will be kept neat, clean and free of garbage, oil cans, plastic bottles, and miscellaneous trash throughout the contract period. All residues, including oils and fluids, generated may not be buried or burned, but must be removed from the sale area and disposed of properly.
3. Those merchantable trees removed or damaged as a result of approved road building operations will be utilized.
4. All road entrances must be cleaned up of all roots, stumps, and down trees at the time of construction.
5. It will be the responsibility of the contractor to repair any road damage due to logging.
6. Contractor is required to close roads at designated map locations by placing rocks, stumps and/or cull log barriers, approximately 2 feet apart for a distance of 25 feet completely blocking the road.

7. Road approaches to surfaced roads or other government public roads are the responsibility of the Contractor. Damage to these roads is the responsibility of the Contractor.
8. **The State does not plow snow on state forest roads.** If a sale is located on a state forest road, the contractor is responsible for plowing the snow. The following are state forest roads: Tower Hill, Bass Lake, Price Creek, Hines Grade, Bear Creek, Skinner Creek, and Hervas.

**Scaling Specification**

1. All bid species of sawlogs will be scaled as such. Pulpwood products cut longer than 8' may be scaled by the board feet and converted to cords as follows: Softwood - 2.44 cds./MBF and Hardwood - 2.20 cds./MBF.
2. All logs will be scaled with the Scribner Decimal C log rule. All logs will be scaled as sawlogs if 50% sound and meet the requirements of a Grade No. 3 log or better in accordance with the National Forest Scaling Handbook. The minimum diameter for a Grade No. 3 log is 10". The maximum trim allowance is 5" unless contractor can demonstrate that market specifications dictate more trim (ties, veneer, etc.). Logs with excessive trim will be scaled at the next highest foot length.
3. Logs will be decked for scaling on pulpwood stringers with the small ends all one way (towards the road) and separated by log length. Decks will not exceed six feet in height and will be accessible for inspection from both sides of the deck.
4. When sap-peeled pulpwood is scaled, 12.5% will be added to hand peeled and stroke delimeter/processor peeled volume, and 16% will be added to ring debarked volume. Scale ticket must state if the load is a peeled product.
5. The mill scale ticket system will be required for pulp. Contractor is required to deposit a scale ticket in the lock box placed on the sale. These tickets are provided by the State Forest and will be filled out in their entirety. The Contractor is also required to deliver a mill ticket to the mill purchasing the forest product. This mill ticket will be returned to the Flambeau River State Forest along with a copy of the mill's scale. The Contractor is responsible for having these mill tickets and scale slips returned to the Flambeau River State Forest in a timely manner. The mill scale slip that corresponds to the lock box ticket must be received at the Flambeau River State Forest Office within 14 days of hauling.
6. If wood is to be yarded at another location other than the sale area, permission must be granted by Forester.
7. Contractors that are required to prepay must at a minimum purchase 5 or more scale tickets at a time, but it is encouraged that a full booklet of 25 scale tickets be purchased.
8. A mill scale ticket must also be placed in the ticket box for loads of scaled logs.

**Cordwood Weight Conversion Factors**

If a cordwood weight conversion is not provided by the mill purchasing the forest product, the following weight conversion factors will be used in the conversion of weight scale to standard 4' x 4' x 100" cords. Seasoned wood is normally understood to be that which was cut and dried two or more months between April 1 and October 31 before weighing. All other wood should be considered green.

CORDWOOD WEIGHT CONVERSION FACTORS  
POUNDS PER CORD

Species	Weight	Species	Weight
Hemlock	4800	Yellow Birch	5350
Tamarack	4650	Hard Maple	5100
Red Pine	4500	Elm	5000
Jack Pine	4250	Balsam Poplar	4900
Balsam	4250	White Birch	4800
White Pine	4200	Ash	4600
Spruce	4000	Soft Maple	4550
White Oak	5850	Aspen	4500
Red Oak	5500	Basswood	3850
Hickory	5400	<b>Mixed Hardwood</b>	<b>4800</b>

**Worker's Compensation Law**

The contractor (purchaser) shall provide the Department with a Certificate of Insurance indicating that Worker's Compensation Insurance coverage is provided for all of the contractor's (purchaser's) employees working under the contract during its duration. This shall be in the Department's file prior to any performance under the contract. Such certificates of insurance shall further include the condition that the insurer shall notify the Department at the Flambeau River State Forest Headquarters within five (5) days of any change in its terms or twenty (20) days prior to termination.

**Seasonal Restrictions**

1. No cutting can be done during the months of April, May, and June in selection harvests or pine thinnings due to bark being more easily damaged at these times, unless special permission is granted.
2. Any wood located within 400' of the Flambeau River shall be removed prior to April 1<sup>st</sup> of each contract year.
3. The State reserves the right to place additional seasonal restrictions on sales as necessary.

**Township Restrictions**

1. It is the responsibility of the Contractor, to obtain permission from the appropriate Township to deck wood along a town road. Decking on town roads must also be permitted by the forester.
2. All road bans and weight restrictions are the responsibility of the Contractor.

**General Conditions**

1. All provisions in the contract shall be met before the contract expires. Performance under the contract must proceed in an efficient, workman-like manner, conducive to the orderly completion of the sale. Extensions will only be considered under unusual hardship of circumstances. Details of extension conditions, damage assessments, and other provisions are addressed in the contract which is on file at the Forest Headquarters.
2. Permanent survey monuments shall be left undisturbed. Forest personnel shall be notified if one is encountered during timber sale operations.
3. Extreme caution must be used in sale operations to prevent wildfire. There are requirements outlined in the contract for fire extinguishers and spark arrestors.
4. No skidding, landing, or piling of wood products will take place on the ATV/Snowmobile trail or the State Forest roads without the Forester's approval. The following are State Forest roads: Tower Hill, Bass Lake, Price Creek, Hines Grade, Bear Creek, Skinner Creek, and Hervas. If approval is granted, decking must be at least 10' from the edge of the road or trail.
5. If a snowmobile trail is used for a timber sale operation, 3" of packed snow will be maintained on the snowmobile trail, weather permitting.

The Special Sale Conditions listed for each individual tract and the General Sale Conditions are additions to, or condensations, of a standard timber sale contract that the successful bidder must sign. A sample contract, additional information, maps for each sale, and bid forms may be obtained from the Forest Superintendent, Flambeau River State Forest, W1613, Co. Rd. W, Winter, Wisconsin 54896.

The Department of Natural Resources reserves the right to reject any or all bids.
