## MUSKIE LAKE ASPEN -- 85 Acres

### Compartment 40A

Town of Lake Tomahawk, Oneida County, T38N-R7E, Sections 29 & 32

Master Plan: Management Area 6 -- Oneida Sandy Plains -- Forest Production

Scale: 4" = 1 Mile  
1:15,840

#### Legend

-  Aspen C40A
-  Section Corner
-  Highways and Town Roads
-  Snowmobile Trails
-  Woods Roads
-  Lakes
-  Private Lands

The objectives for this part of the Forest are to increase the presence and age of red pine and white pine in all timber types. Additionally, the aspen component is to be maintained as a dominant community on the landscape.

The Aspen type will be regenerated through harvesting most of the trees. This cut will mimic a natural disturbance and allow the early successional aspen type to be maintained on the landscape. Another goal of this harvest will be to increase the age class diversity of the aspen type in the vicinity. The year of origin for this aspen stand is 1970.

No seasonal restrictions will be imposed and biomass harvesting will be allowed.
