	Jeremiah Auer	(715) 424-3702	8 - 4

Payment

A voucher payment system is used. The seller receives a copy of the voucher when seed is delivered to a buying station. A check to the seller is mailed in two to four weeks.

Seed Cleaning

All acorns should be floated in water prior to delivery to the nursery. Acorns that sink are generally considered viable; discard any that float. Rocks and rotten acorns must be removed. If seed is not clean when it arrives at the buying station, it may be rejected or a price reduction applied.

Seed Storage

Store seed in a cool, dry location and deliver it to a buying station as soon as possible to prevent heating or molding. Storage should be in a breathable container.

White oak must be stored in a cool place and brought to a buying station as soon as possible. White oak tends to sprout quickly. *The nursery may reject acorns with radicals longer than 1/2".*
