## Easy as 1, 2, 3!

- 1** Use the index map (back cover) to find the area you would like to fish.
- 2** Find the county list and locate the water that you would like to fish.
- 3** Follow the Trout Regulations Key (p. 9) or the specific regulation for that water. If the water is not listed, use the "all waters not listed" regulation category.

# Your Guide to Regulations and Better Trout Fishing

This guide is specific to inland (including streams that flow into the Great Lakes) trout fishing. For general fishing rules, which also apply to trout fishing, refer to the 2014–2015 Guide to Wisconsin Hook and Line Fishing Regulations (Publication FH-301). The regulations in this pamphlet are effective March 1, 2014 through February 28, 2015. For more information, see the 2014-2015 Guide to Wisconsin Hook and Line Fishing Regulations. This pamphlet is a summary of Wisconsin's trout fishing laws and regulations. For complete fishing laws and regulations consult the Wisconsin Administrative Code of the Department of Natural Resources ([www.legis.state.wi.us/rsb/code/nr/nr020.pdf](http://www.legis.state.wi.us/rsb/code/nr/nr020.pdf)).

## Trout Fishing Restrictions - *It is illegal...*

- to fish without a Wisconsin fishing license or stamp as required. You must have an inland trout stamp if you need a fishing license and intend to fish for trout in inland waters, including streams flowing into Lake Superior. You need a Great Lakes trout and salmon stamp to fish for trout and salmon in streams that flow into Green Bay and Lake Michigan from their mouths up to the first dam or lake (including specific waters listed above). A 2-day resident inland lake trout license may be purchased to fish trout in inland lakes (no stamp required).
- to fish for any species of fish in trout streams when the trout season is closed except that rough fish may be taken by hand.
- to possess a fish that is below the minimum length limit or above the maximum length limit established for the waters being fished.
- to take, catch, kill, or fish for any variety of fish in excess of the daily bag limit or total daily bag limit (see definitions below).
- to possess or fish for more than the daily bag limit of fish while you're fishing or while you're on the water, shore or bank of the water, or on the ice, regardless of the number of days fished
- to possess more than the possession limit at any time. The possession limit on trout in inland waters is 10 with no more than 5 being a combined total of brown and rainbow trout
- to move live fish away from a water, except minnows that were purchased from a licensed bait dealer under certain conditions. Check the DNR website for more information - [www.dnr.wi.gov/topic/fishing](http://www.dnr.wi.gov/topic/fishing).
- to use or release minnows on rehabilitated trout lakes that are identified with posted signs.
- to possess any live bait or any other baits, hooks or lures other than artificial lures while on the waters, banks or shores of waters where only the use of artificial lures is allowed.
- to remove insect larvae from any trout stream or spring hole tributary to a trout stream for use or sale as bait except that a licensed angler may take insect larvae or nymphs from trout streams by hand during the open trout season for their immediate personal use as bait in the stream from which taken and all such larvae or nymphs must be returned to the stream prior to leaving the stream from which taken. By hand means no use of small seines or nets or other devices.

## Seasons, Bag Limits, Daily bag limits, and Possession Limits

- **Regular general Open season** for all waters, including lakes - First Saturday in May at 5:00 a.m. through September 30 except as listed in the specific waters listed by county.

### May 3 to September 30, 2014

- The **Daily bag limit** is the maximum number of fish that an angler may reduce to his/her possession from a specified waterbody or a portion of a waterbody in one day. The **total daily bag limit** is the maximum number of fish that an angler may reduce to his/her possession in one day from all waters or portions of waters fished for that day. An angler may combine the catch of a particular species from multiple waters until the **total daily bag limit** is reached as long as the Daily bag limit for each body of water is never exceeded. Be aware that while on the water, bank or shore of the water, or on the ice, you may not possess more than the daily limit for that body of water. For example, an angler catches a daily limit of brown trout from a 5-bag limit stream. The angler can not then fish another stream with a 3 brown trout limit while still possessing the 5 brown trout from the previous stream. The **total daily bag limit** for inland trout and Lake Michigan tributaries upstream of the first dam or lake is 10 in total, of which no more than 5 may be a combined total of brown and rainbow trout. The **possession limit** for inland trout and Lake Michigan tributaries upstream of the first dam or lake is the same as the total Daily bag limit. The **possession limit** for streams that flow into Lake Michigan (upstream from the mouth to the first dam or lake) or Lake Superior is twice the Daily bag limit. The total Daily bag limit for lake trout in inland lakes is 10.

- **Early catch and release season** for trout - First Saturday in March at 5:00 a.m. to the Sunday preceding the First Saturday in May at midnight on the waters listed in 1 through 19 below:

### March 1 to April 27, 2014

- The Daily bag limit and possession limit for trout during this time is 0 (all trout caught must be immediately released) and only artificial lures may be used while fishing for any species of fish on trout streams during this early season. The early season does not apply to spring ponds, ponds, lakes, Lake Michigan tributaries, major Green Bay tributaries, all other tributary streams, rivers and ditches to Green Bay upstream to the first dam or lake, or streams flowing into Lake Superior and their tributaries upstream to the first impassible barrier.

**No open season:** Vilas Co. - Palette Lake.

## Abbreviations and Explanations:

- STH = state highway CTH = county highway  
USH = United States highway
- **Artificial lure** means a spoon, spinner, plug or other fish bait made of hair, feathers, cork, wood, rubber, metal, plastic or other synthetic materials, or combinations of these materials. An "artificial lure" may not include natural or organic food stuffs such as corn, marshmallows, dough, cheese, meat, living or dead organisms or parts thereof, except hair, feathers, cork, wood and rubber.
- **Urban waters** are lakes and ponds which are intensively and cooperatively managed with a municipality. They are posted with signs and have a large part of the shoreline open for public access. Search "urban fishing" at [dnr.wi.gov](http://dnr.wi.gov) for more information.
- Some waters have seasons, length and bag limits for trout, but are not designated trout streams.
- Access to streams or lakes on Native American reservations must be with the permission of the landowner or from lands open to the public such as public roads. Entering or fishing from tribal lands could subject you to tribal or federal trespass laws.

### Public or Private?

### How Do I Know If I'm Trespassing?

- Navigability determines whether a waterway is public or private. Navigable lakes and streams are public waterways.
- A waterway is navigable if it has a bed and banks and it is possible to float a canoe or other small craft at sometime of the year—even if only during spring floods.
- Because they are public, you may use navigable waters for fishing, boating, swimming or other recreational activities, provided public access is available, or you have permission of the land owner to cross their property to reach the waterway. Once on a navigable waterway, AS LONG AS YOU KEEP YOUR FEET WET, YOU MAY WALK ALONG THE BED OF THE STREAM, FISH, SWIM, OR BOAT IN ANY NAVIGABLE LAKE OR STREAM.

# Identifying Wisconsin's Trout and Salmon

## Inland Trout

## Great Lakes Trout

### Brook Trout

Irregular wormlike markings on back and dorsal fin

Reddish spots with blue halos

Square tail

Pinkish fins edged in white

Pale markings may look similar to small lake trout

Square tail

### Brown Trout

Large black, blue or red spots on body

Square tail with few spots

10 - 12 anal rays

Very silvery in summer. Dark spots on body but not colorful reds or blue

### Rainbow Trout

Many small spots on body

Square tail with many spots over entire tail in radiating rows

White mouth and gums

10 - 12 anal rays

Spots all over tail remain, but rest of body is silver.

White mouth identifies rainbow (steelhead) from the salmon.

## Great Lakes Salmon and Lake Trout

### Chinook Salmon

Spots over entire tail

Black mouth and gums

15 - 19 anal rays

### Coho Salmon

Spots on upper part of tail

Black mouth and white gums

13 - 15 anal rays

### Lake Trout

Irregular wormlike markings on back and dorsal fin

Light spots in body and tail

Deeply forked tail
