The significant ecological places depicted on this map originate from several different plans that identify areas of the state that are ecologically important based on criteria described in those plans. Land Legacy Places were identified in the Wisconsin Land Legacy Report (2006): http://dnr.wi.gov/master_planning/land_legacy/
Conservation Opportunity Areas were identified in Wisconsin's Wildlife Action Plan Implementation Report (2008): http://dnr.wi.gov/org/land/er/wwap/
Important Bird Areas were identified in Important Bird Areas of Wisconsin (2007): http://www.wisconsinbirds.org/iba/IBA-book.htm
Protected Lands include most State, Federal and County ownership or easements as well as lands owned or managed by land trusts and NGOs such as The Nature Conservancy and others.
