

# Karst and Shallow Carbonate Bedrock

Scale: 1:2,750,000  
 Wisconsin Transverse Mercator NAD83(91)  
 Map S17 - ams

This information represents a digital version of the polygon units shown on "Bedrock Geologic Map of Wisconsin," originally published in 1982 at a scale of 1:1,000,000. Represented are the map unit names "Opc", "Os", and "Su". Descriptions of these map symbols can be found on the second page of the "Bedrock Geology" map in this section.

### Carbonate Bedrock (depth below surface)

-  0 - 50 feet
-  > 50 feet
-  Ecological Landscape
-  County Boundaries
-  Open Water
