Rev. 10/22/2014

**Legend**

Property Boundary	Private Land or State Land Closed to Hunting
Ice Age Trail	State Land Open to Hunting
Observation Tower	
Playground	
Toilets	
Parking	

The Headwaters Recreation Management Area of the Pike Lake Unit - Kettle Moraine State Forest's 74 acres are open to hunting during established hunting seasons. Some seasons are subject to change. Special disabled permits can be obtained by contacting the forest office. Consult the hunting and trapping regulations before going hunting.

Hunting is not permitted in intensive use areas such as parking lots, or other posted special use areas. There is private land surrounding this section of property. It is the hunter's responsibility to be sure to stay on state-owned property and not trespass on adjacent private lands.
